These losses are all covered by insurance, placed mostly with W. G. McCandless & Co., of this city.

START OF THE BLAZE.

It was just 7:55 o'clock last evening when smoke was seen issuing from the fourth floor of the Union Storeage company's building, on Pike street near Thirteenth street. The building was six stories in height and occupied almost the entire block between Twelfth and Thirteenth street and Pike street and Mulberry alley. The first floor front was occupied as offices of the Chautauqua Lake Ice company, and a local office of the Union Storeage company. The second floor front contained the stables of the Chautauqua company and in the Twelfth street end they had their ice making plant, which occupied the first three floors. This was filled with valuable ice making machinery and other property of the Chautauqua company.

The balance of the building was occupied by the storage company. Immediately upon the discovery of the fire an alarm was sent in and was responded to promptly, but owing to the construction of the building, it was practically impossible to fight the fire from without, while the volume of smoke inside the particular division in which the fire occurred made it impossible to fight it from within.

FIREMEN HANDICAPPED.

The only openings in the three fire walls dividing the great buildings were closed by heavy iron doors, and these were locked. For three hours the firemen worked, scarcely knowing what they were doing. The iron shutters were impregnable to their attacks.

The smoke that found its way out of the building filled Mulberry alley and Pike street, stifling the firemen and rendering them practically sightless. It would clear for a moment or two and they would again maneuvre or make some headway, but to no avail. Finally at 11 o'clock the flames burst out through the roof and shot upward a hundred feet in the air, and making that part of the city as light as day.

This was the first note of alarm that started the flight of residents from their homes on Pike, Thirteen and Twelfth streets. Women and children started forth barefooted and in their night clothes, followed by their husbands, bearing what little they could carry in their arms of their household effects. The police were watchful and the crowds were kept back by fire lines and the fearful heat of the flames.

AWFUL EXPLOSION.

Suddenly, above the roar of the flames and the puffing of the fire engines which were everywhere, came the more powerful noise of the first explosion. The din of falling walls foretold destruction and death in thunderous tones. Those within the fire lines were seen to fall in all directions. Those outside the lines were not without the reach of danger. The great puff of air created by the explosion seemed to make everything sway and shake.

Those not knocked down by the first awful blast started to run, and were knocked down by the reactionary waves of air, as the falling walls created a vacuum that seemed to draw in everything. It was on the Mulberry Alley side, where the least danger was anticipated, the greatest volume of smoke and preliminary outbursts of flame having come out of the Pike street side, that the force of the explosion was the most severe, and there the greatest number of fatalities took place.

The falling walls crushed in the rear of buildings having fronts on Penn avenue. The side of the Hoveler building, on Pike street, was also crushed in and an entry made for the flames. At the Thirteenth street end of the warehouse the most terrible effect of the explosion was manifest. That entire front was piled into the street.

FRIGHTFUL SCENES.

Explosion followed explosion for about half an hour between 12 and 1 o'clock. The fire, after each report like that of a cannon, burst through the walls in all directions.

About 1:30 a perticularly heavy explosion occurred, and part of the heavy walls of the storage house toppled over on the roofs of the houses and into the courtyard. The firemen at work there escaped by the narrowest chance. In the meantime the scene on Pike street was an even more awe inspiring one. The instant following the first big explosion the warehouse of Hoveler & Company caught fire, and this was followed by the falling in of the walls of the building of the Chautauqua Lake Ice Co.

Burned out walls came toppling down and firemen, policemen and spectators were rendered almost powerless to act by the sense of awe and terror which the scene inspired. The old brick houses along Penn avenue from Twelfth to Thirteenth street, caught from the rear and burned rapidly. Only a few streams could be used on the Penn avenue fronts of these houses and the crowd was slowly driven off the op-

DE LOME'S JOB GONE

His Resignation Accepted at Madrid.

Outcome of the Minister's Insult of the President.

Admitted the Offense and Then Resigned.

Spanish Cabinet Meets With the Queen Regent and Takes Prompt Action --Washington Agog.

MADRID, Feb. 10.—At a meeting of the Spanish cabinet held today under the auspices of the Queen Regent, the minister for foreign affairs Senor Culion, read a dispatch from Senor Dupuy De Lome, the Spanish minister at Washington, saying that the published letter to Senor Canalejas was written by him and that his position, consequently, had become untenable and he begged the government to accept his resignation. The cabinet decided to accept the resignation of Senor Dupuy De Lome and the ministers, subsequently met and decided to telegraph to Senor De Lome accepting his resignation and entrusting the first secretary with the conduct of the current affairs of the legation.

All the newspaper comments on the subject bitterly denounce "the business of stealing and publishing a private letter." After the cabinet council the premier, Senor Sagasta, told the correspondent of the Associated Press that Senor Dupuy DeLome had "bravely" admitted the authorship of the letter.

THE NEWS AT WASHINGTON.

WASHINGTON, Feb. 10.—In view of the news from Madrid of the acceptance of the resignation of the Spanish minister, it may be stated that our government is not disposed to split hairs over the method of the offending minister's retirement—in other words, it is not concerned as to whether he resigns or is recalled, so long as he leaves the capital. It is true that the exact language of the message sent by the state department to Mr. Woodford indicated the president's desire that the minister be recalled, but the language was used as the most proper for such an occasion and must not be taken to mean that the president is disposed to go further than is necessary in the pursuit of Mr. Dupoy DeLome, now no longer an official of the Spanish government reprepresenting it at Washington, but simply as a Spanish citizen lingering at the capital only long enough to pack up and remove his effects. The Madrid cable to the Associated Press, communicated to the Spanish minister, was his first knowledge that action had been taken by the cabinet and queen. The official notification had not reached him up to 1:30 p. m.

The acceptance of the resignation was fully accepted, and occasioned no surprise or change of plans. The effect of the acceptance is to close Senor Dupuy De Lome's services as Spanish minister at Washington.

IN WASHINGTON.

The De Lome Incident the One Theme at the Capital.

WASHINGTON, Feb. 10.—The publication in the newspapers yesterday of what purported to be an autograph letter written by Dupuy De Lome, the Spanish minister, to his friend Canalejas, criticising the president with the utmost freedom, caused a sensation in official Washington, and soon will be followed by Minister De Lome's departure from the United States.

At the outset there was a disposition to question the authenticity of the letter, but bit by bit the circumstantial evidence accumulated until it was finally announced officially that the minister declined to deny the authorship of the letter, when all doubt was dissipated and the only question that remained was to the line of action to be pursued by our government toward the offending minister.

The writing of this letter is unquestionably an offense against the amenities of diplomatic relations and such offenses almost invaribly have been regarded in the United States as in other capitals as sufficient ground for the termination of the official status of the letter writer.

As soon as the letter appeared in the press the state department officials began an effort to settle its authenticity, and when it had learned all that could be developed on this point and had been told that the minister himself refused to deny writing it the consideration of the next step began.

MESSAGE SENT TO WOODFORD.

Assistant Secretary Day was in consultation with the president on the subject at least four times during the official day, and then spent much time in framing his message to United States Minister Woodford at Madrid. The official statement of the sending of this message was accompanied by a declination to indicate its contents at this time, the department merely giving to the press the following statement:

"Minister De Lome does not deny writing the letter. This department has communicated with General Woodford on the subject. Until that communication reaches the Spanish government it would be improper to in any manner state the contents of the message to General Woodford."

While the department refused to add anything to this meager announcement it can be stated without question that Mr. Woodford was directed to lay the facts developed before the Spanish government, together with the statement that in view of the minister's refusal to deny the authorship of the letter the Spanish government is looked to with confidence to deal with the case properly.

DE LOME'S RECALL ADVISED.

This amounts to an invitation to recall the minister, presuming that he himself has not already taken steps to vacate his position. No doubt is entertained of a compliance with the implied suggestion, but in case there should be undue delay in acting the state department would feel called upon to move directly in the matter, and give the minister his passports, as was done when Sir Julian Pauncefote's predecessor wrote the celebrated Murchison letter.

OFFICIAL STATEMENT.

State Department Gives Out Substance of Cablegrams to General Woodford.

WASHINGTON, Feb. 10.—The state department this morning gave out for publication the substance of the cablegram sent yesterday to General Woodford, our minister to Madrid, in reference to the DeLome letter. The statement is as follows:

"There has appeared in the public prints a letter addressed by the Spanish minister to Mr. Canalejas. This letter, the minister admits, was written by him. It contains expressions concerning the president of the United States of such character as to end the minister's usefulness as a representative of his government in this country. General Woodford, therefore, was instructed at once to say to the minister of state that the immediate recall of Depuy DeLome is expected by the president."

DE LOME WANTS ORDERS.

Up to 10:30 o'clock today Senor Dupuy DeLome had not received from his government an announcement of its acceptance of his resignation but it is believed that this soon will be given and that the minister's official connection with the goverment as the Spanish representative to the United States will come to a prompt termination without the necessity of action by this government in giving to the minister his passports. Senor DeLome regards himself as now a private citizen, although technically still Spain's representative.

RAPID DEVELOPMENTS.

Events in connection with the minister's letter have been transpiring rapidly within the last few hours, and all the attending circumstances were developed today. On Tuesday night the minister first received private information that the letter was in the hands of the Cuban junta and was about to be made public. The information was meager, and not knowing exactly what would be referred to, and believing that the story was an exaggeration from Cuban sources, he characterized the reports as ridiculous. At no time, however, did he deny the authenticity of the letter to Canalejas. Later, when fully acquainted with the facts, he cabled the Spanish government fully, stating that the letter was about to be published and that in his judgment the effect would be to end his usefulness as the representative of Spain at Washington. This was Tuesday night, before the publication appeared. In effect it was a tender of his resignation, although couched in the terms usual to diplomacy, that the usefulness of the minister was at an end. This continues to be the status up to the present time, the offer of resignation being before the authorities at Madrid. What action they have taken, or will take, has not been made known here.

DE LOME MUST GO.

That there will be an acceptance of the resignation is regarded as certain, as soon as the usual formalties can be observed. The queen regent is the only one who can relieve a representative of her government from his post, and until she acts the last formality will not be concluded. In the meantime a cabinet council may consider the situation, and its action will be conclusive, the queen simply giving official execution to the cabinet's decision.

FEAR VIOLENCE.

Madrid Government Take Precautions to Guard Minister Woodford.

MADRID, Feb. 10.—The news of the DeLome incident was received too late yesterday evening to obtain opinions. The government press naturally ascribed its authorship to the Cuban jingoes, the Washington state department announcement that DeLome had admitted the genuiness of the letter not being received until early this morning. Senor Canalejas was out of town, but his secretary said he had never received any such letter from DeLome. For sometime past the authorities have been taking extra precaution in guarding the residence of the United States minister, General Stewart L. Woodford, which is on the outskirts of the city. On Sunday the guard was reinforced by twenty-four men, and the Heraldo says that even this was not considered sufficent. Additional precaution were adopted, evidently under the impression that public order night be disturbed, and a number of mounted civil guards were posted in the vicinity. Thereupon, the Heraldo asks whence the necessity for these precautions, since Madrid has offered absolutely not a single symptom justifying such measures.

PARTISANS OBJECT.

Transfer of Letter Carriers Has Aroused Them.

They Will Make a Fight Against the Civil Service Law and Demand Pledges From Candidates.

The action of the postoffice authorities and the civil service commission in transferring Mail Carrier Cullum from Leadville, Colo., to Fort Wayne, has aroused the ire of the dyed-in-the-wool partisans in the republican party. There are many aspirants for positions as mail carriers in Fort Wayne and these applicants see that there is hardly a chance for them. Already a conference has been held by some of the rank and file of the party and it is the intention of this organization to make a fight on the civil service law. They will oppose any candidate for the legislature, congress or the United States senate who does not pledge himself to use every effort to secure the repeal of the civil service law. There has been much grumbling by disappointed office seekers but this last action of the authorities at Washington is the straw that broke the camel's back. Many promises of offices made have not and cannot be fulfilled and the opponents of the civil service law in Fort Wayne believe the time has arrived to make an open fight.

The advocates of the law do not seem to feel uneasy except to say that the vote of the republican candidates in this vicinity may be affected to a considerable extent.

LUETGERT GUILTY.

Condemned to Imprisonment for Life.

The Jury Was Out But a Few Hours--The Big Sausagemaker Denounces the Jurors.

CHICAGO, Feb. 10.—Last night at 11 o'clock, the jury in the case of Adolph Luetgert, tried for the murder of his wife, returned a verdict finding the prisoner guilty and fixing the penalty at life imprisonment. Luetgert was brought into court and received the verdict with apparent indifference.

"That jury was a pack of cowards," said Adolph L. Luetgert at the county jail today. The big sausage maker showed some anger as he spoke. "If they had been men—men of nerve and character," continued Luetgert, "there would have been no compromise verdict. They did not decide the case on the law and the evidence. They simply compromised. I am either guilty or innocent. If I am guilty, I deserve death; they ought to hang me as high as Gilroy's kite. If I am innocent I am entitled to my liberty."

A Solution of the Chinese Puzzle Found.

Japan Notifies China That She Intends to Keep Wei-Hai-Wei Permanently --Settles Indemnity.

PARIS, Feb. 10.—Official advices received by the foreign office from Peking say Japan has notified China that she intends to keep Wei-Hai-Wei permanently. China, in notifying the Chinese ministers abroad to this effect, directs them to notify the powers also that, in view of this, no foreign loan is required, as the purpose of the loan was solely to pay the Japanese war indemnity.

GIGANTIC TRUST.

To Control the Entire Pig Iron Trade.

Carnegie Iron Company at the Head of it.

All Leading Producers to be Taken In.

A Central Selling Company to Handle the Output of the Trust--Will be Like Coal Trust.

CLEVELAND, Feb. 10.—An afternoon paper says:

In Cleveland Iron circles the sensational story was circulated today that an effort is being made by the Carnegie Iron company to form a trust, controlling the entire pig iron trade of the country. Local iron dealers recently received communications from the Carnegie compny urging that such a deal be considered and advancing the lengthy arguments to prove the benefit a trust would be to all concerned. The promoters of the project propose to follow the same plan under which the big coal trust is now being organized. They propose to bring all the leading producers into the combine and regulate the output by giving each member of the combine an allotment. It is proposed to regulate the allotment by figuring on the average output of each firm during the past five years. It is also proposed to establish a central selling company, which will be obliged to handle the output of the trust, placing it in the hands of the consumers.

CARNEGIE'S DENY THE STORY.

PITTSBURG, Feb. 10.—The officials of the Carnegie company were shown the dispatch from Cleveland, in which it was stated that the Carnegie company was making an effort to form a pig iron trust, and they pronounce it false in every particular. The story was probably founded, they said, on a statement published that they had recently made large purchases of pig iron.

GET READY TO PAVE.

Preparing to Go Ahead With the Work on Calhoun Street.

Board of Works and City Engineer Randall Making an Examination of the Thoroughfare.

The fine weather of the past few days has been utilized by the board of public works and City Civil Engineer Randall in making an examination of Calhoun street, preparatory to paving that throughfare this spring. All day yesterday and today they have been busy on the street, making surveys and estimates and within a month some action will have been taken. It has not been determined that asphalt will be used in the pavement, but the chances are in its favor. The pavement will be between Superior street and the south depot and between the tracks of the Wabash and Pennsylvania railroads.

Mr. Randall has not had time to make an investigation of the bids submitted for the St. Mary's foot bridge and the matter will not be settled before tomorrow.

HE WAS A THIEF.

William H. Armhold Was More Than a Forger.

Confesses to Having Stolen Clothing From Mr. Silverstine--Some of the Stolen Property Recovered.

An investigation of William H. Armhold shows that he was a thief as well as a forger. All the time he was employed by Max Silverstine he was systematically robbing the store. Mr. Silverstine has uncovered $25 worth of stolen goods already and estimates that he has been robbed of at least $75 worth. Besides the suit he had on Armhold sold one pair of pants and a suit to Fieldblat, the Barr street second hand man, an overcoat he pawned to Horace Marriotte and then sold the pawn ticket to Goldstein, the second-hand man, and the latter redeemed the clothes. Armhold also sold to Goldstein two pairs of pants and an umbrella. Two other suits he acknowledges to have stolen. At another time he sold an $8 suit for $1.50 and then collected the balance of the money and used it himself. Armhold has confessed to Mr. Silverstine that he stole the above goods and has signed a statement to that effect. He is certain to serve a long time in prison.

GENERAL BOOTH

Officiates as Chaplain of the Senate.

A Reception for the Salvation Army Leaders--Quiet Day in the House and Senate.

WASHINGTON, Feb. 10.—General William Booth, of London, founder of the Salvation army, officiated as chaplain at the opening today of the senate session. He invoked divine blessing upon the senate and its members and besought the Great Ruler of all to continue his favor to those here gathered for the ruling and regulation of this great and mighty nation and that all that might here be done be to the honor and glory of God. He prayed that this country might move forward in the march of Christianity so that it might be an example to all other nations of the earth. Mr. and Mrs. Booth Tucker, the son-in-law and daughter of General Booth, were in the gallery during the prayer.

Previous to the meeting of the senate the party held a brief reception in the vice president's room.

Mr. Frye, of Maine, reported favorably from the committee on commerce a bill to amend the laws relating to navigation. He said that as the proposed bill related only to Alaskan waters, it was necessary that prompt action should be taken. The bill was passed without division. Mr. Chandler, of New Hampshire, gave notice that he would tomorrow call up the Corbett case immediately after the morning business. The Indian appropriation bill was then considered.

IN THE HOUSE.

WASHINGTON, Feb. 10. — Mr. Walker, republican, West Virginia, in the house today presented the report of committee on elections No. 3 on the contested election case of Thorp vs. Epes, from the fourth district of Virginia. The majority report was signed by the republicans of the committee and was in favor of seating the contestant, Mr. Thorp. The house then got in a squabble over a private claim bill and personal as well as party feeling becoming aroused several hours were consumed in securing a quorum, democrats absenting themselves.

ED HERR SIGNS.

His Contract Received by Manager O'Meara Today.

O'Meara is Busily Engaged in Preparing for the Athletic Benefit and Arranging for the Coming Season.

Big Ed. Herr, the blonde twirler, who made quite a record here last season, has signed his contract and it was received this morning. There was a disagreement as to the salary Herr should receive and overtures were made to him by other clubs. Ed., however, finally refused them all and accepted the Fort Wayne club's contract.

BOOMING THE BENEFIT.

Manager-Captain O'Meara is booming the athletic club benefit which will occur at the club rooms Friday evening, March 4. Yesterday he put tickets on sale and called on the business men of the city. There was a liberal purchase, but some of the business men did not feel disposed to buy and these were generally those who benefitted most by a club. The lovers of the game, however, are giving the benefit a most liberal support. The entire net proceeds of the affair go into the treasury of the base ball club and will be used in the payment of the guarantee, purchase of suits, etc.

Henry C. Paul and Charles S. Bash, of this city, representing a majority of the stock, were in attendance. Affairs of the company were discussed and the following board of directors elected: Charles F. Dieterich, A. B. Proal, Samuel Thorn, G. A. Clark, A. A. Brady, J. H. Benedict, Walton Ferguson, John Sloane, all of New York; H. C. Paul and C. S. Bash, of Fort Wayne; Hugh Dougherty, of Bluffton. All of the above were members of the old board of directors except John Sloane, who was elected to succeed Director Southern.

The board of directors will meet in New York and elect officers at some later date. The present officers of the company are Chas. F. Dieterich, president; A. B. Proal, treasurer, and F. E. Scheimann, of this city, secretary.

James E. Murdock, president of the Lafayette company, and John Pearson, of the Indianapolis company, were in the city in consultation with Messrs. Dieterich and Proal.

This afternoon the company ran a special train to the pumping station at Bluffton. A number of newspaper men and Fort Wayne citizens went with the excursion.

Messrs. Dieterich and Proal will go to Lima, Ohio, tonight.

DEATHS AND FUNERALS.

Mrs. M. E. Schmetzer and Mrs. Murray Died Last Evening.

Last evening at her home, No. 240 Washington boulevard, occurred the death of Mrs. Elizabeth Sophia Schmetzer, wife of M. L. Schmetzer, trustee of Wayne township. Mrs. Schmetzer has been a sufferer with diabetes for ten years but was always able to be about until last Sunday, when she suffered an attack of palpitation of the heart. She steadily grew worse each day until last evening, when she passed away.

Elizabeth Sophia Matsch was born in the Kingdom of Prussia on the 8th of August, 1840, being 58 years of age at the time of her death. 1852 she came with her parents to this country and settled in Hamilton county, Indiana. Here she was married to John Celt, now deceased. On the 25th of March, 1861 she was married to Michael Schmetzer, who, with nine children still survive. Mr. and Mrs. Schmetzer came to Fort Wayne in 1860, the same year of their marriage.

Mrs. Schmetzer has been a consistent Christian woman and leaves a host of sorrowing friends. The children of the deceased are: Mrs. Geo. H. Slater, of Lafayette; Mrs. Rev. Broecker and Miss Anna Schmetzer, of Pittsburg, Pa.; Mrs. C. J. Ohrt, of Niagara Falls; Geo. Schmetzer, of Muncie, A. G., Jos. and Miss Adelia Schmetzer, of this city.

She was a sister of Christoph Matsch, clerk at Bass' machine works, and John C. Matsch, of the Pacific Iron works, of San Francisco, Cal.

The funeral services will be held at the late residence at 1:30 o'clock on Sunday afternoon and at 2 o'clock from Emanuel's Lutheran church, Rev. Gross officiating. Interment will be made in Concordia cemetery.

MRS. MURRAY.

The death of Mrs. Caroline Jones Murray, occurred at 1:30 o'clock yesterday afternoon. The deceased was eighty-three years of age, and her death was caused by congestion of the lungs, superinduced by old age. She was born in Manchester, Md., and came to Fort Wayne in 1835. She married Dr. P. J. Jones, the first physician in Fort Wayne, he having come here in 1833. Dr. Jones was also mayor of Fort Wayne for a number of years. She was the mother of the late Mrs. Robert Brackenridge. After the death of Dr. Jones his widow married Mr. Murray, deceased.

The funeral will occur at 2 o'clock on Saturday afternoon from the residence of her son, G. W. Jones, 136 Jackson street. The Rev. W. Bennett will officiate.

Next Saturday evening in Jackson's hall Henry Singer, the strong man will be tendered a benefit. A feature of the evening's entertainment, will be a sparring match between Herb Hale and John Crandall "The Eastern Kid," and wrestling between Joe Acton and Treesch.

The remains of the late David Spencer will be removed to the residence of George D. Crane, on West Berry street tomorrow morning at 9 o'clock. The funeral services will be held in the Crane residence at 2 o'clock in the afternoon.

THE number of lynchings occurring in this country in 1897 was so large as to cause national humiliation, and yet even this black record is fair to be eclipsed by the record one of 1898. Hardly a day passes that a lynching in some one of the southern states is not reported, and this particular form of lawlessness is apparently spreading and growing more, instead of less frequent. If the rate of January is continued during the remaining seven months of the year the lynching record of 1898 will be a thing of which no American can speak without a feeling of shame.

THE pertinent suggestion is made that if Germany continues its policy of excluding American products, our government shall exclude from American ports such German steamships as are constructed to be used for cruisers and are commanded by German naval officers. This would be wholly within American rights. But it would deal a severe blow at German trade, and will hardly be resorted to except as a measure of imperative necessity.

PERHAPS there is nothing in a name, but the pictures painted by Fortuny seem to command fortunes. At the great Stewart art sale in New York twenty-three of the artist's canvasses were sold, and the sum realized amounted to no less than $132,435, or an average of $5,758 apiece, while one of them brought $42,000. It was a pretty stiff price for $10 or $12 worth of paint and canvas, but art comes high these days, and the collector must have a long purse.

THE news that the old age of Adolph Sutro has been clouded with mental infirmity will be received with regret. Mr. Sutro is a very rich man. He began as a miner in a small way. His genius more than that of any other man developed the great art of gold and silver mining, and he has used his vast wealth with an eye to the comfort and happiness of the people of San Francisco. His name, when he shall have passed away, will be preserved in that of a beautiful public park, a public library and public baths, the finest in the world since the sumptuous constructions of the Romans. The popular heart could have wished the sun of such a life an undimmed setting.

THE Spanish government has issued a statement showing that from February, 1895, to December, 1897, the Cuban war has cost in round numbers $240,000,000, not including arrears due from the Cuban treasury exceeeding $40,000,000. This enormous drain on Spanish resources has impoverished the nation, yet the Sagasta ministry is preparing to raise money if lenders can be found. Nearly every source of revenue has been mortgaged for years ahead, and if the money is to be found new methods of taxation must be put in effect. That the Spanish people have borne the burden so long without open revolt is due rather to good luck than to good management, but there can be little question that the Carlist cause is being steadily strengthened.

WE hear in this country now and then a good deal of intemperate talk of the venality of our courts and the prostitution of justice. It is sometimes asserted that all men are not equal before the law and that money and position influence our judiciary. There have doubtless been isolated occasions for such reflections upon our courts, but those who have been too deeply impressed with them should watch the progress of the trial of M. Emile Zola before a French tribunal. The great novelist is absolutely in the power of the government, with not a single chance to escape, if it has been willed that he shall not. The court is undisguised in its hostility to him, his testimony is cut out for him and his witnesses picked by the prosecution. Such a spectacle in the United States would provoke an uprising. Our courts are still the altar of our liberties and, though some courts may sometimes be bad, there is not a court in this land where a fair hearing is denied and justice throttled as is being done in Paris in the assize court of the Seine.

THE famous Luetgert murder trial in Chicago at last is ended. The big sausagemaker is found guilty and condemned to life imprisonment. The verdict of the jury seems to be a self-confession of doubt as to the prisoner's guilt. It is hardly to be be questioned that had all doubt been removed from the minds of the jurors the death penalty would have been inflicted. It is fashionable in Chicago. Strong as was the case made out by the state, it was not proved clearly that Mrs. Luetgert is dead. The vexed question of the corpus dilecti is still an issue and in some fair minds always will be. The jury seems to have fully appreciated that an acquittal would never do and another disagreement would be practically to nolle the case. A life sentence serves the double purpose of punishing the murderer if it be the fact that he is guilty and at the same time sparing him for a pardon if Mrs. Luetgert should turn up. Yet the prisoner's manifest satisfaction that he escapes the death penalty is some evidence that there is justice in the verdict of the jury.

NILES, Mich., Feb. 10.—Chief Simon Pokagon, the aged ruler of the last remnants of the famous Pottawatomie tribe of Indians, has lost his home at Lee, Allegan county, by fire.

The flames also destroyed all the papers and other evidence that he had accumulated to assist him in securing the remaining amount due the members of his tribe from the United States government for the purchase of their lands.

The loss has fallen heavily on the aged warrior, and he has called upon his white brethren to assist him.

New Members Being Initiated Into the Orders—Many Preparing to Celebrate Washington's Birthday.

A new council of the Order of Chosen Friends to be known as Maumee Council No. 3, was organized on February 8, 1898, at Odd Fellows hall, on West Berry street, by Fred E. Wehnert, grand marshal of the grand council of Indiana. Grand Councilor Ed. A. Campbell, of Elkhart, assisted by the officers and members of Columbian Council No. 3, conducted the ceremony of initiation, after which the beautiful ritual work of the order was exemplified. It was voted by the two councils in this city that they join hands and consolidate and be known as Maumee Council No. 3. The Chosen Friends of this city are composed of the most prominent and substantial citizens, and the new council starts out with bright prospects. The first council of Chosen Friends was organized in Fort Wayne in December, 1879, and has paid to deceased and disabled members $25,000. The next meeting of the new council will be held on February 15th, at Odd Fellows hall on West Berry street. Permanent officers for the ensuing term will be elected and all members of the Columbian council and also of the Maumee council are requested to be present.

I. O. O. F.

At the meeting of Fort Wayne Lodge No. 14, I. O. O. F., last Monday evening, Chas. Rhine took his first step in Odd Fellowship. The work was performed from the new manuel of floor work, under the management of F. M. McLeish. Next Monday the lodge will work in the first degree, when the fraternal link of the triple chain will be fully exemplified and explained to the candidates. Frank McLeish will have the degree staff in charge.

Fort Wayne Encampment No. 152, will work in the R. P. degree next Friday evening, when the patriarchs will endeavor to explain the hospitality of the patriarchs of old.

A. O. U. W.

The meeting of No. 36, A. O. U. W., this evening will be one of importance to the three local lodges. Arrangements will be made to pay due respect to the memory of the late William M. Culver, whose death occurred early Wednesday morning. Mr. Culver had been a member of this lodge for a number of years and was ever ready to lend a helping hand in attending to the wants of the sick and needy. He was always a leader in performing committee duties and was captain of the team which performed the initiatory work, and to he alone credit is due for the proficiency attained in this line. At the time he became sick he was filling the office of overseer and was a member of the First A. O. U. W. band, which organization will lead the lodges who will act as escorts from the late residence to the grave.

At the last meeting of No. 36 a committee consisting of Messrs. H. F. France, John W. Vordermark, N. Conover, G. R. Hench, George E. Campbell and Henry Brunkhart was appointed to arrange for the joint meeting to be held February 24. Nos. 19 and 50 will be guests of No. 36 and they will be given a royal reception. The committee is preparing to feed 500 people. After supper a smoker will be indulged in and a general good time enjoyed. The program will consist of vocal and instrumental music, recitations and impromptu speeches in response to calls from the toastmaster.

SONS OF VETERANS.

Col. E. S. Walker camp 159, S. V. U. S. A. will observe Lincoln's birthday at Grace Reformed church, Sunday evening, February 13th. All the G. A. R. posts and military companies of the city as well as all old soldiers and their friends are cordially invited to attend. Members of the Sons of Veterans are requested to wear their uniforms, and act as ushers. Seats will be reserved for the old soldiers and their auxiliaries.

On next Tuesday evening the Sons of Veterans will be inspected at their hall, 80 Calhoun street, J. L. Marvin, of Auburn, Ind., acting as inspecting officer. It is desired that there be a full attendance of members.

DAUGHTERS OF REBEKAH.

Queen Esther lodge, No. 324, D. of R., last Saturday evening initiated Mrs. Charles Thompson. Some excellent floor work was performed, Mrs. F. T. Benoy having charge of the degree staff.

Mrs. J. Grice, of Queen Esther lodge, will serve tea for the ladies Tuesday afternoon at her residence, 163 East Wayne street, assisted by Mrs. F. M. McLeish, Mrs. D. McLeish and Mrs. Johnston.

DAUGHTERS OF WORKMEN.

The committee has arranged to give a masquerade social at the Knights of Pythias hall next Tuesday evening. All the members of the Daughters of Workmen and their friends are invited. Come and bring your friends with you, as a good time and a good supper will be assured. The ladies are sure to make a success of whatever they undertake.

NATIONAL UNION.

National Union No. 93 met last evening. After the business meeting closed a quartet rendered several musical selections.

FRATERNAL MYSTIC CIRCLE.

Fort Wayne ruling 662 held a regular meeting last evening and the attendance was fair. After routine business had been expeditiously disposed of, considerable discussion was indulged in by nearly all the members present relative to the good of the order. Much interest was manifested, plainly showing that all the members were and are deeply interested. Then followed the final appointment of committees relative to the Washington social and entertainment. The committee on lunch and refreshments consists of all the lady members.

The reception committee is composed of the three ruling executive officers, as follows: John G. Haag, Warren Rogers and John M. Lipes. It was also agreed to give the entertainment in Harmony hall, No. 20 West Berry street, large room, second floor. Refreshments will be served to the audience immediately after the entertainment, which will include vocal and instrumental music, comedy sketches, song and dance, etc., after which D. E. Stevens, S. M. R., of Philadelphia, will deliver a short address.

BEN HUR.

Ben Hur Court, No. 15, Tribe of Ben Hur, met last Monday evening, had a large meeting and much interest was shown in the welfare of the order. This court bids fair to be one of the largest in the state. Several applications for membership were received and one candidate was given a chance to ride the goat. After the initiation and business of the meeting had been disposed of, the members devoted the evening to the enjoyment of music and interesting literary exercises, which are regular features of their meetings.

DEGREE OF HONOR.

Degree of Honor No. 20, A. O. U. W. is flourishing and adding new members each session. Louis Lombard was the last new member added. Degree of Honor No. 2 expects to co-operate with lodge No. 36, A. O. U. W. in an entertainment which promises to be a very pleasant affair. The tickets for the taffy pulling are selling very rapidly and there will no doubt be a large attendance and a pleasant time.

SEXENNIAL LEAGUE.

Unity lodge, of the Sexennial League, holds its meetings Thursday evening of each week, and will have a class of ten to initiate this evening. Mrs. George A. Sthair, of 40 Force street, will entertain the league and their friends at tea Tuesday, February 15.

RATHBONE SISTERS.

There was a very enthusiastic meeting held at Rathbone Temple, No. 31, last Saturday night. Besides initiation there was a literary program, which was enjoyed by all. Mr. and Mrs. Miller, of Andrews, were present and enjoyed the exercises very much. There is to be a box social tonight at Mrs. Adams on Lavina street, to which everybody is invited. Don't forget the entertainment to be held at Standard hall Thursday, February 17.

K. AND L. OF COLUMBIA.

Liberty council, No. 22, Knights and Ladies of Columbia held a rousing meeting last evening. Every member present was enthusiastic. Arrangements are being made to initiate a large class in the near future.

GRAND FRATERNITY.

Grand Fraternity No. 85, is making arrangements for a private masquerade party to be given at the hall, Aldine block, Thursday evening, Febuary 17. Let every frater come, representing some being of this glorious world, and enjoy an evening with companions of the nations. During the evening a dainty luncheon will be served in courses to suit the taste of every one present. Turn out and help make this occasion one to be remembered.

ROYAL ARCANUM.

Howard council, No. 246, Royal Arcanum, will hold a Valentine social next Monday evening, at which the members and their families are expected to turn out liberally. The chief feature of the evening's amusements will be progressive pedro, during the progress of which an orchestra will render some selections.

MODERN WOODMEN.

Edward camp, No. 3,127, Modern Woodmen of America, is still keeping up the interest of woodcraft. The growing popularity of this order is demonstrated by the number of applications for membership which are received at each meeting of the camp. Tuesday evening, just as the Foresters were about to shoulder their axes to hew and prepare a log for practical use in woodcraft, there came an alarm at the door and a delegation of Royal Neighbors came marching in. Needless to say work was suspended and the Royal Neighbors given a hearty welcome. They went away satisfied that the true Woodmen appreciate the work of this young and thrifty branch of the order.

There will be a class of candidates on the evening of February 22, it being Washington's birthday. Every Woodman is requested to sharpen his hatchet and be ready, for there will be cherry trees to chop and no lie either, after which will be given a supper and social entertainment.

A communication was received from Fort Wayne camp, No. 4761, inviting Edwards camp to participate with them in an old fashioned spelling match, which was accepted. As the members of Edwards camp are all good spellers they will issue a challenge, the defeated camp to turn the grindstone while the winning camp grind their axes.

B. P. O. E.

The Fort Wayne lodge, No. 155, B. P. O. E., held a very enthusiastic meeting last Tuesday evening. Brother Gengler, of the Garrett lodge, was present and explained that a special train would meet the Fort Wayne delegation at Auburn Junction; also that Garrett lodge was prepared to entertain the visitors in grand style at the social session, which is to be held on the 17th.

MODERN AMERICAN FRATERNAL ORDER.

Anthony Wayne lodge, No. 42, Modern American Fraternal order held a most interesting meeting last evening, a feature of which was the initiation of twenty-one new members. Another notable feature was the musical entertainment given by Mesdames Ulery, Wynan and Bowser and Miss Lee. The local lodge now has nearly 300 members. Arrangements are now under way for an entertainment next Wednesday evening which will be open to the public. Capt. T. W. Blair and Miss Florence Higgins have charge of this entertainment. They have already secured the Emerson quartet, the Filmore quartet, Miss Laura Bowser, Mrs. Lee, Mrs. Ada Denner Ulrey, Chaplain Rouch, Professor Ulrey, the impersonater, and other attractions.

"To tell the truth my mother has lived with one foot in the grave," writes Mrs. Eugene Stantzenberg, of No. 1604 Walker Ave., Houston, Texas, in a letter to Dr. R. V. Pierce, of Buffalo, N. Y.

"With a most thankful heart I will tell you about the wonderful cure effected in her case. She has been a perfect wreck for seven long years. No words can describe what she has suffered. She could not sleep on account of severe pains. She tried every doctor around here and spent hundreds of dollars without benefit. After hearing of your wonderful remedies I wrote to you. My mother has taken six bottles of the 'Golden Medical Discovery,' and six of the 'Favorite Prescription,' and is now perfectly cured. Please receive the heartiest thanks and blessings from my father and seven children for saving the life of dear mother. May God bless you and your Institution, is the wish of your friend."

Tens of thousands of women have found complete and permanent relief from obstinate and seemingly incurable disease by using the wonderful remedies referred to above. The "Golden Medical Discovery" possesses the peculiar property of nourishing and vitalizing the blood with the life-giving red corpuscles which build up healthy flesh and muscular strength.

In the special weaknesses and diseases of the feminine organs, the "Favorite Prescription" is a perfect and positive specific. It is the only scientific medicine prepared for that purpose by an educated physician and specialist in that particular field of practice.

For weak and nervous women these two medicines taken conjointly constitute the most marvelously successful course of treatment known to the medical profession.

For nearly 30 years Dr. Pierce has been chief consulting physician to the Invalids Hotel and Surgical Institute, Buffalo, N. Y., at the head of a splendid staff of associate specialists, graduates from the leading medical universities of America and Europe.

A WOMAN'S SUFFERINGS.

Some of the Agonies They Needlessly Endure.

Nervousness and Female Weaknesses Ruin Many Lives.

These Poor Sufferers Have Found A Sure Way To Get Well.

Female weaknesses are more common today than ever before. Constant work and worry weaken the nerves and vitality, and female weakness follows. As a result there is pain, discharges, suppression, irregularities, weak back, inflammations, bearing down, bad taste in the mouth, loss of appetite, faintness, constipation, nervousness, sleeplessness and irritability. Mrs. S. Taylor, of 251 West 17th St., New York City, says:

"For years I have been unable to attend to my household duties owing to severe sickness. I was troubled terribly with female weakness, suppression of the menses for over six years, nervous exhaustion, sleeplessness and general debility. I had coldness of limbs and feet, and was in a helpless condition. I feared I should never get well.

"I had been under a doctor's care all the time but got no better. I was utterly prostrated, and good for nothing. By the advice of a friend who was cured by Dr. Greene's Nervura blood and nerve remedy, I began using this wonderful medicine. After taking it a short time I was completely cured of all my troubles. My nerve strength returned, my female weakness entirely left me, my nervousness disappeared, I slept well and was in perfect health. For this blessing I have to thank Dr. Greene's Nervura blood and nerve remedy. It is a wonderful medicine."

Such testimonials as these are always the means of curing thousands of suffering women who are wise enough to accept the advice of those who have been cured. Countless numbers of people all over the land have regained their health by this wonderful remedy, and are crying out to their fellow creatures to take Dr. Greene's Nervura blood and nerve remedy, and be made well and strong. It is not a patent medicine, but the prescription of the most successful physician, Dr. Greene, of 148 State Street, Chicago, Ill., who can be consulted free, personally or by letter.

KANSAS CITY, Mo., Feb. 10.—J. R. Sovereign, ex-general master workman of the Knights of Labor, yesterday announced that he had almost completed arrangements for a secret politico-labor organization to be an adjunct of the free-silver cause. BARRIOS IS KILLED.

Guatemala's President the Victim of an Assassin.

Was of Liberal Ideas and Tried to Develop His Country's Natural Resources.

WASHINGTON, Feb. 10.—President Barrios, of Guatemala, has been assassinated. Senor Arriaga, the Guatemalan minister, received an official dispatch from the minister of foreign affairs at Guatemala City, confirming an earlier report of the assassination received by a San Francisco newspaper. The official dispatch added that entire calmness prevailed, and that First Vice President Estrada Cebrera had succeeded to the presidency. No details of the crime were given.

The assurances of the absence of any public disorder in connection with the assassination of President Barrios, and of the peaceful and immediate succession of the first vice president, in accordance with the constitutional methods of the country, are special sources of gratification to the officials of the Guatemalan legation here. To some extent they alleviate the shock of the tragedy. The relations between the late president and the Guatemalan minister, Senor Arriaga, were much more than of an official character. They were close personal friends, and the death of the president at the hands of an assassin comes as a personal bereavement to the minister.

Senor Arriaga said President Barrios was a man of wide attainments and marked executive ability. He was a man of liberal ideas and tried to develop his country's natural resources.

He was compaartively young, being only forty-two years old. The six years' term of service for which he was elected terminated March 15 next, but the national congress had already extended this term for four years. The president, Mr. Cabrera, is a man of prominence in Guatemala.

In that country there is no vice president elected with the president. The duty of filling the executive chair devolves on congress. Accordingly, two vice presidents, first and second, were designated some time ago. They are eligible in the order of their choice. When the excitement of the tragedy has passed, a presidential election may be held.

The Michigan City Dispatch has had its faith in humanity greatly strengthened. For a long time it had as a subscriber a convict in the penitentiary. When his term expired he left the prison for his home in Pennsylvania without paying for the paper. The other day the Dispatch received a letter from the former convict, who desired to know the amount of his bill for subscription. It was sent to him and he made a prompt remittance. And this moves the Dispatch to say such honesty is "worthy of emulation by all persons inside and outside of state prisons."

FRANK BOGASH.

Clark's Horse Review Speaks Highly of the Fast Pacer.

A Handsome Picture of the Champion Graces the Front Page of the Big Horse Paper.

Clark's Horse Review of this week contains as its frontispiece a handsome picture of Fort Wayne's champion pacer, Frank Bogash. In commenting on the animal, the Horse Review says:

"Our title page picture this week is a very good likeness of the great pacing stallion Frank Bogash 2:04¼, one of the most sensational side wheelers of the past two seasons. He is an Ohio production, having been bred by George W. Bowerman, of Napoleon, Ohio, who also bred, and at that time owned his sire, Atlantic King 2:09¾, now the property of Centlivre Bros.' of Spy Run Farm, Fort Wayne, Ind. Frank Bogash made his debut as a two-year-old in 1894, taking a record of 2:26¾. Very little was done with him as a three-year-old, but in 1896 as a four-year-old, he was a sensation, won race after race in commanding style, and retired with a record of 2:10¼. At the close of the season he was booked to appear as one of the particular stars of 1897, and he was not a disappointment, his record being the fastest made by a new comer to the 2:10 list. He won several notable races, but his greatest performance was in a race in which he was defeated. This was the famous six-heat race won by Planet at Columbus, Ohio, August 7, which was a record-breaker. Aileen won the first heat in 2:07½, Bogash the next two in 2:05¾, 2:04¼, and Planet the next three in 2:05¼, 2:07¼, 2:06¼. In the last heat, the son of Atlantic King, was beaten by a neck only.

"Frank Bogash has always been campaigned in the Spy Run stable, he being owned and driven by its trainer, the well known reinsman, Frank Bogash, who sold him, last season, to a Boston gentleman. He was driven by Oscar Ames at Columbus, but later in the season was restored to his old master's care and will be raced by him in 1898. He is an aspirant for free-for-all honors."

The board of health reports that there are no new cases of scarlet fever or diphtheria in this city, but that measles is still raging. Every effort is made to stop the progress of the latter disease and every day scores of children are sent home from school because there is a suspicion that they may have been exposed. There has been only two fatalities from measles. Two or three cases of membraneous croup have been reported within the last few days and the houses where this disease exists is quarantined the same as in cases of scarlet fever and diphtheria. Dr. Drayer says there has not been a case reported which has not been quarantined.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

INFERNO OF FLAME.

[CONTINUED FROM FIRST PAGE.]

posite side of the avenue to greater distances. A whole company of firemen was throwing a stream into the great storage house from a narrow court yard in the rear of Penn avenue, from which a narrower alley led to the street.

As the wall fell, Chief Humphreys, who was standing near the entrance to the narrow street, called to the men of No. 12 engine company, who had just time to get away from the spot, when the line of hose and pipe was buried beneath tons of debris.

MIRACULOUS ESCAPE.

Their escape was miraculous, one fireman, named Reilly, being struck by a falling brick as he jumped to obey the shouting warning of the chief. Through the Hoveler warehouse the flames swept like a cloud of dust before the wind. The building though new was of ordinary construction and presented all that was needed in the way of material for a fierce fire.

Added to this was the nature of its contents, 600 barrels of whisky. One after another of these barrels exploded, throwing blazing beams and rafters, masses of stone and brick into the air, and scattering the firemen, police and spectators. From the blazing timbers, which were hurled in every direction, the fire was communicated to the adjoining buildings. McKallup & Co.'s grain and feed warehouse on the corner of Pike street, caught in the rear, and despite the efforts of the firemen the flames worked their way into the center of the building and then mounted the elevator shaft to the roof, through which it was soon pouring.

The building was filled on every floor with flour, feed and grain. On the ground floor was stored several hundred tons of anthracite coal. So fierce was the fire that this was soon burning and under the draft, influenced by the heat, was pouring out gaseous fumes that spread through the building and almost overcame the firemen who were working to keep back the flames. Following the last explosion, but a moment, it seemed, the flames leaped across the narrow space that separated the great warehouse from the rear of the buildings facing on Penn avenue and wrapped themselves around them.

By 3 o'clock the flames were under control, but at noon today a dozen engines were still throwing water on the smouldering ruins.

TAKING OUT THE DEAD.

The work of taking out the killed and injured was begun as soon as the fire was well enough under control to give the firemen and police a chance to go at the sorrowful duty. At 11 o'clock this morning, seventeen dead bodies had been removed to the morgue, eighteen injured were in the hospital, and three others were missing. The police believe that several more are underneath the debris, and no one is willing to predict what a tale of death the complete search of the ruins will unfold.

The scene at the morgue was a harrowing one. As soon as the badly burned and mangled bodies were removed they were taken there, where they were washed and placed in presentable condition. The injured were taken to the Homepathic hospital, and as fast as they were brought in were placed in the emergency ward and scattered throughout the various wards and in the corridors. Most of them were not badly hurt. There were many narrow escapes during the fire.

AMMONIA CAUSED EXPLOSIONS.

The explosions were caused by the bursting of large tanks filled with ammonia, used in the manufacture of ice. W. C. Burt, a prominent insurance man, places the total loss at close to $2,000,000. Mr. Burt said that there is not an insurance company in either Pittsburg or Allegheny that does not carry policies on the property destroyed. The cause of the fire has not yet been discovered.

Meetings are held every evening in the Wayne street Methodist church. The bad weather has decreased the attendance but the interest has continuously increased. Many have been converted and bear testimony to it. There are many cottage prayer meetings being held by the ladies. A male quartet has rendered some excellent numbers. The pastor, Rev. Dr. Bennett, preaches a short sermon, and an altar exercise follows. An invitation is extended to all to attend.

Allen Kirkpatrick & Co., canned goods.

These losses are all covered by insurance, placed mostly with W. G. McCandless & Co., of this city.

START OF THE BLAZE.

It was just 7:55 o'clock last evening when smoke was seen issuing from the fourth floor of the Union Storeage company's building, on Pike street near Thirteenth street. The building was six stories in height and occupied almost the entire block between Twelfth and Thirteenth street and Pike street and Mulberry alley. The first floor front was occupied as offices of the Chautauqua Lake Ice company, and a local office of the Union Storeage company. The second floor front contained the stables of the Chautauqua company and in the Twelfth street end they had their ice making plant, which occupied the first three floors. This was filled with valuable ice making machinery and other property of the Chautauqua company.

The balance of the building was occupied by the storage company. Immediately upon the discovery of the fire an alarm was sent in and was responded to promptly, but owing to the construction of the building, it was practically impossible to fight the fire from without, while the volume of smoke inside the particular division in which the fire occurred made it impossible to fight it from within.

FIREMEN HANDICAPPED.

The only openings in the three fire walls dividing the great buildings were closed by heavy iron doors, and these were locked. For three hours the firemen worked, scarcely knowing what they were doing. The iron shutters were impregnable to their attacks.

The smoke that found its way out of the building filled Mulberry alley and Pike street, stifling the firemen and rendering them practically sightless. It would clear for a moment or two and they would again maneuvre or make some headway, but to no avail. Finally at 11 o'clock the flames burst out through the roof and shot upward a hundred feet in the air, and making that part of the city as light as day.

This was the first note of alarm that started the flight of residents from their homes on Pike, Thirteen and Twelfth streets. Women and children started forth barefooted and in their night clothes, followed by their husbands, bearing what little they could carry in their arms of their household effects. The police were watchful and the crowds were kept back by fire lines and the fearful heat of the flames.

AWFUL EXPLOSION.

Suddenly, above the roar of the flames and the puffing of the fire engines which were everywhere, came the more powerful noise of the first explosion. The din of falling walls foretold destruction and death in thunderous tones. Those within the fire lines were seen to fall in all directions. Those outside the lines were not without the reach of danger. The great puff of air created by the explosion seemed to make everything sway and shake.

Those not knocked down by the first awful blast started to run, and were knocked down by the reactionary waves of air, as the falling walls created a vacuum that seemed to draw in everything. It was on the Mulberry Alley side, where the least danger was anticipated, the greatest volume of smoke and preliminary outbursts of flame having come out of the Pike street side, that the force of the explosion was the most severe, and there the greatest number of fatalities took place.

The falling walls crushed in the rear of buildings having fronts on Penn avenue. The side of the Hoveler building, on Pike street, was also crushed in and an entry made for the flames. At the Thirteenth street end of the warehouse the most terrible effect of the explosion was manifest. That entire front was piled into the street.

FRIGHTFUL SCENES.

Explosion followed explosion for about half an hour between 12 and 1 o'clock. The fire, after each report like that of a cannon, burst through the walls in all directions.

About 1:30 a particularly heavy explosion occurred, and part of the heavy walls of the storage house toppled over on the roofs of the houses and into the courtyard. The firemen at work there escaped by the narrowest chance. In the meantime the scene on Pike street was an even more awe inspiring one. The instant following the first big explosion the warehouse of Hoveler & Company caught fire, and this was followed by the falling in of the walls of the building of the Chautauqua Lake Ice Co.

Burned out walls came toppling down and firemen, policemen and spectators were rendered almost powerless to act by the sense of awe and terror which the scene inspired. The old brick houses along Penn avenue from Twelfth to Thirteenth street, caught from the rear and burned rapidly. Only a few streams could be used on the Penn avenue fronts of these houses and the crowd was slowly driven off the op-

DE LOME'S JOB GONE

His Resignation Accepted at Madrid.

Outcome of the Minister's Insult of the President.

Admitted the Offense and Then Resigned.

Spanish Cabinet Meets With the Queen Regent and Takes Prompt Action --Washington Agog.

MADRID, Feb. 10.—At a meeting of the Spanish cabinet held today under the auspices of the Queen Regent, the minister for foreign affairs Senor Cullon, read a dispatch from Senor Dupuy De Lome, the Spanish minister at Washington, saying that the published letter to Senor Canalejas was written by him and that his position, consequently, had become untenable and he begged the government to accept his resignation. The cabinet decided to accept the resignation of Senor Dupuy De Lome and the ministers, subsequently met and decided to telegraph to Senor De Lome accepting his resignation and entrusting the first secretary with the conduct of the current affairs of the legation.

All the newspaper comments on the subject bitterly denounce "the business of stealing and publishing a private letter." After the cabinet council the premier, Senor Sagasta, told the correspondent of the Associated Press that Senor Dupuy DeLome had "bravely" admitted the authorship of the letter.

THE NEWS AT WASHINGTON.

WASHINGTON, Feb. 10.—In view of the news from Madrid of the acceptance of the resignation of the Spanish minister, it may be stated that our government is not disposed to split hairs over the method of the offending minister's retirement—in other words, it is not concerned as to whether he resigns or is recalled, so long as he leaves the capital. It is true that the exact language of the message sent by the state department to Mr. Woodford indicated the president's desire that the minister be recalled, but the language was used as the most proper for such an occasion and must not be taken to mean that the president is disposed to go further than is necessary in the pursuit of Mr. Dupoy DeLome, now no longer an official of the Spanish government reprepresenting it at Washington, but simply as a Spanish citizen lingering at the capital only long enough to pack up and remove his effects. The Madrid cable to the Associated Press, communicated to the Spanish minister, was his first knowledge that action had been taken by the cabinet and queen. The official notification had not reached him up to 1:30 p. m.

The acceptance of the resignation was fully accepted, and occasioned no surprise or change of plans. The effect of the acceptance is to close Senor Dupuy De Lome's services as Spanish minister at Washington.

IN WASHINGTON.

The De Lome Incident the One Theme at the Capital.

WASHINGTON, Feb. 10.—The publication in the newspapers yesterday of what purported to be an autograph letter written by Dupuy De Lome, the Spanish minister, to his friend Canalejas, criticising the president with the utmost freedom, caused a sensation in official Washington, and soon will be followed by Minister De Lome's departure from the United States.

At the outset there was a disposition to question the authenticity of the letter, but bit by bit the circumstantial evidence accumulated until it was finally announced officially that the minister declined to deny the authorship of the letter, when all doubt was dissipated and the only question that remained was to the line of action to be pursued by our government toward the offending minister.

The writing of this letter is unquestionably an offense against the amenities of diplomatic relations and such offenses almost invariably have been regarded in the United States as in other capitals as sufficient ground for the termination of the official status of the letter writer.

As soon as the letter appeared in the press the state department officials began an effort to settle its authenticity, and when it had learned all that could be developed on this point and had been told that the minister himself refused to deny writing it the consideration of the next step began.

MESSAGE SENT TO WOODFORD.

Assistant Secretary Day was in consultation with the president on the subject at least four times during the official day, and then spent much time in framing his message to United States Minister Woodford at Madrid. The official statement of the sending of this message was accompanied by a declination to indicate its contents at this time, the department merely giving to the press the following statement:

"Minister De Lome does not deny writing the letter. This department has communicated with General Woodford on the subject. Until that communication reaches the Spanish government it would be improper to in any manner state the contents of the message to General Woodford."

While the department refused to add anything to this meager announcement it can be stated without question that Mr Woodford was directed to lay the facts developed before the Spanish government, together with the statement that in view of the minister's refusal to deny the authorship of the letter the Spanish government is looked to with confidence to deal with the case properly.

DE LOME'S RECALL ADVISED.

This amounts to an invitation to recall the minister, presuming that he himself has not already taken steps to vacate his position. No doubt is entertained of a compliance with the implied suggestion, but in case there should be undue delay in acting the state department would feel called upon to move directly in the matter, and give the minister his passports, as was done when Sir Julian Pauncefote's predecessor wrote the celebrated Marchison letter.

OFFICIAL STATEMENT.

State Department Gives Out Substance of Cablegrams to General Woodford.

WASHINGTON, Feb. 10.—The state department this morning gave out for publication the substance of the cablegram sent yesterday to General Woodford, our minister to Madrid, in reference to the DeLome letter. The statement is as follows:

"There has appeared in the public prints a letter addressed by the Spanish minister to Mr. Canalejas. This letter, the minister admits, was written by him. It contains expressions concerning the president of the United States of such character as to end the minister's usefulness as a representative of his government in this country. General Woodford, therefore, was instructed at once to say to the minister of state that the immediate recall of Dupuy DeLome is expected by the president."

DE LOME WANTS ORDERS.

Up to 10:30 o'clock today Senor Dupuy DeLome had not received from his government an announcement of its acceptance of his resignation but it is believed that this soon will be given and that the minister's official connection with the government as the Spanish representative to the United States will come to a prompt termination without the necessity of action by this government in giving to the minister his passports. Senor DeLome regards himself as now a private citizen, although technically still Spain's representative.

RAPID DEVELOPMENTS.

Events in connection with the minister's letter have been transpiring rapidly within the last few hours, and all the attending circumstances were developed today. On Tuesday night the minister first received private information that the letter was in the hands of the Cuban junta and was about to be made public. The information was meager, and not knowing exactly what would be referred to, and believing that the story was an exaggeration from Cuban sources, he characterized the reports as ridiculous. At no time, however, did he deny the authenticity of the letter to Canalejas. Later, when fully acquainted with the facts, he cabled the Spanish government fully, stating that the letter was about to be published and that in his judgment the effect would be to end his usefulness as the representative of Spain at Washington. This was Tuesday night, before the publication appeared. In effect it was a tender of his resignation, although couched in the terms usual to diplomacy, that the usefulness of the minister was at an end. This continues to be the status up to the present time, the offer of resignation being before the authorities at Madrid. What action they have taken, or will take, has not been made known here.

DE LOME MUST GO.

That there will be an acceptance of the resignation is regarded as certain, as soon as the usual formalities can be observed. The queen regent is the only one who can relieve a representative of her government from his post, and until she acts the last formality will not be concluded. In the meantime a cabinet council may consider the situation, and its action will be conclusive, the queen simply giving official execution to the cabinet's decision.

FEAR VIOLENCE.

Madrid Government Take Precautions to Guard Minister Woodford.

MADRID, Feb. 10.—The news of the DeLome incident was received too late yesterday evening to obtain opinions. The government press naturally ascribed its authorship to the Cuban jingoes, the Washington state department announcement that DeLome had admitted the genuiness of the letter not being received until early this morning. Senor Canalejas was out of town, but his secretary said he had never received any such letter from DeLome. For sometime past the authorities have been taking extra precaution in guarding the residence of the United States minister, General Stewart L. Woodford, which is on the outskirts of the city. On Sunday the guard was reinforced by twenty-four men, and the Heraldo says that even this was not considered sufficient. Additional precaution were adopted, evidently under the impression that public order might be disturbed, and a number of mounted civil guards were posted in the vicinity. Therefore, the Heraldo asks whence the necessity for these precautions, since Madrid has offered absolutely not a single symptom justifying such measures.

PARTISANS OBJECT.

Transfer of Letter Carriers Has Aroused Them.

They Will Make a Fight Against the Civil Service Law and Demand Pledges From Candidates.

The action of the postoffice authorities and the civil service commission in transferring Mail Carrier Cullum from Leadville, Colo., to Fort Wayne, has aroused the ire of the dyed-in-the-wool partisans in the republican party. There are many aspirants for positions as mail carriers in Fort Wayne and these applicants see that there is hardly a chance for them. Already a conference has been held by some of the rank and file of the party and it is the intention of this organization to make a fight on the civil service law. They will oppose any candidate for the legislature, congress or the United States senate who does not pledge himself to use every effort to secure the repeal of the civil service law. There has been much grumbling by disappointed office seekers but this last action of the authorities at Washington is the straw that broke the camel's back. Many promises of offices made have not and cannot be fulfilled and the opponents of the civil service law in Fort Wayne believe the time has arrived to make an open fight.

The advocates of the law do not seem to feel uneasy except to say that the vote of the republican candidates in this vicinity may be affected to a considerable extent.

LUETGERT GUILTY.

Condemned to Imprisonment for Life.

The Jury Was Out But a Few Hours--The Big Sausagemaker Denounces the Jurors.

CHICAGO, Feb 10.—Last night at 11 o'clock, the jury in the case of Adolph Luetgert, tried for the murder of his wife, returned a verdict finding the prisoner guilty and fixing the penalty at life imprisonment. Luetgert was brought into court and received the verdict with apparent indifference.

"That jury was a pack of cowards," said Adolph L. Luetgert at the county jail today. The big sausage maker showed some anger as he spoke. "If they had been men—men of nerve and character," continued Luetgert, "there would have been no compromise verdict. They did not decide the case on the law and the evidence. They simply compromised. I am either guilty or innocent. If I am guilty, I deserve death; they ought to hang me as high as Gilroy's kite. If I am innocent I am entitled to my liberty."

A Solution of the Chinese Puzzle Found.

Japan Notifies China That She Intends to Keep Wei-Hai-Wei Permanently --settles Indemnity.

PARIS, Feb. 10.—Official advices received by the foreign office from Peking say Japan has notified China that she intends to keep Wei-Hai-Wei permanently. China, in notifying the Chinese ministers abroad to this effect, directs them to notify the powers also that, in view of this, no foreign loan is required, as the purpose of the loan was solely to pay the Japanese war indemnity.

GIGANTIC TRUST.

To Control the Entire Pig Iron Trade.

Carnegie Iron Company at the Head of it.

All Leading Producers to be Taken In.

A Central Selling Company to Handle the Output of the Trust--Will be Like Coal Trust.

CLEVELAND, Feb 10.—An afternoon paper says:

In Cleveland iron circles the sensational story was circulated today that an effort is being made by the Carnegie Iron company to form a trust, controlling the entire pig iron trade of the country. Local iron dealers recently received communications from the Carnegie company arguing that such a deal be considered and advancing the lengthy arguments to prove the benefit a trust would be to all concerned. The promoters of the project propose to follow the same plan under which the big coal trust is now being organized. They propose to bring all the leading producers into the combine and regulate the output by giving each member of the combine an allotment. It is proposed to regulate the allotment by figuring on the average output of each firm during the past five years. It is also proposed to establish a central selling company, which will be obliged to handle the output of the trust, placing it in the hands of the consumers.

CARNEGIE'S DENY THE STORY.

PITTSBURG, Feb. 10.—The officials of the Carnegie company were shown the dispatch from Cleveland, in which it was stated that the Carnegie company was making an effort to form a pig iron trust, and they pronounce it false in every particular. The story was probably founded, they said, on a statement published that they had recently made large purchases of pig iron.

GET READY TO PAVE.

Preparing to Go Ahead With the Work on Calhoun Street.

Board of Works and City Engineer Randall Making an Examination of the Thoroughfare.

The fine weather of the past few days has been utilized by the board of public works and City Civil Engineer Randall in making an examination of Calhoun street, preparatory to paving that throughfare this spring. All day yesterday and today they have been busy on the street, making surveys and estimates and within a month some action will have been taken. It has not been determined that asphalt will be used in the pavement, but the chances are in its favor. The pavement will be between Superior street and the south depot and between the tracks of the Wabash and Pennsylvania railroads.

Mr. Randall has not had time to make an investigation of the bids submitted for the St. Mary's foot bridge and the matter will not be settled before tomorrow.

HE WAS A THIEF.

William H. Armhold Was More Than a Forger.

Confesses to Having Stolen Clothing From Mr. Silverstine--Some of the Stolen Property Recovered.

An investigation of William H. Armhold shows that he was a thief as well as a forger. All the time he was employed by Max Silverstine he was systematically robbing the store. Mr. Silverstine has uncovered $25 worth of stolen goods already and estimates that he has been robbed of at least $75 worth. Besides the suit he had on Armhold sold one pair of pants and a suit to Fieldblat, the Barr street second hand man, an overcoat he pawned to Horace Marriotte and then sold the pawn ticket to Goldstein, the second-hand man, and the latter redeemed the clothes. Armhold also sold to Goldstein two pairs of pants and an umbrella. Two other suits he acknowledges to have stolen. At another time he sold an $8 suit for $1.50 and then collected the balance of the money and used it himself. Armhold has confessed to Mr. Silverstine that he stole the above goods and has signed a statement to that effect. He is certain to serve a long time in prison.

Officiates as Chaplain of the Senate.

A Reception for the Salvation Army Leaders--Quiet Day in the House and Senate.

WASHINGTON, Feb. 10.—General William Booth, of London founder of the Salvation army, officiated as chaplain at the opening today of the senate session. He invoked divine blessing upon the senate and its members and besought the Great Ruler of all to continue his favor to those here gathered for the ruling and regulation of this great and mighty nation and that all that might here be done be to the honor and glory of God. He prayed that this country might move forward in the march of Christianity so that it might be an example to all other nations of the earth. Mr. and Mrs. Booth Tucker, the son-in law and daughter of General Booth, were in the gallery during the prayer.

Previous to the meeting of the senate the party held a brief reception in the vice president's room.

Mr. Frye, of Maine, reported favorably from the committee on commerce a bill to amend the laws relating to navigation. He said that as the proposed bill related only to Alaskan waters, it was necessary that prompt action should be taken. The bill was passed without division. Mr. Chandler, of New Hampshire, gave notice that he would tomorrow call up the Corbett case immediately after the morning business. The Indian appropriation bill was then considered.

ED HERR SIGNS.

His Contract Received by Manager O'Meara Today.

O'Meara is Busily Engaged in Preparing for the Athletic Benefit and Arranging for the Coming Season.

Big Ed. Herr, the blonde twirler, who made quite a record here last season, has signed his contract and it was received this morning. There was a disagreement as to the salary Herr should receive and overtures were made to him by other clubs. Ed., however, finally refused them all and accepted the Fort Wayne club's contract.

BOOMING THE BENEFIT.

Manager-Captain O'Meara is booming the athletic club benefit which will occur at the club rooms Friday evening, March 4. Yesterday he put tickets on sale and called on the business men of the city. There was a liberal purchase, but some of the business men did not feel disposed to buy and these were generally those who benefitted most by a club. The lovers of the game, however, are giving the benefit a most liberal support. The entire net proceeds of the affair go into the treasury of the base ball club and will be used in the payment of the guarantee, purchase of suits, etc.

DEATHS AND FUNERALS.

Mrs. M. F. Schmetzer and Mrs. Murray Died Last Evening.

Last evening at her home, No. 240 Washington boulevard, occurred the death of Mrs. Elizabeth Sophia Schmetzer, wife of M. F. Schmetzer, trustee of Wayne township. Mrs. Schmetzer has been a sufferer with diabetes for ten years, but was always able to be about until last Sunday, when she suffered an attack of palpitation of the heart. She steadily grew worse each day until last evening, when she passed away.

Elizabeth Sophia Matsch was born in the Kingdom of Prussia on the 8th of August, 1840, being 58 years of age at the time of her death. In 1852 she came with her parents to this country and settled in Hamilton county, Indiana. Here she was married to John Celt, now deceased. On the 25th of March, 1860, she was married to Michael F. Schmetzer, who, with nine children, still survive. Mr. and Mrs. Schmetzer came to Fort Wayne in 1860, the same year of their marriage.

Mrs. Schmetzer has been a consistent Christian woman and leaves a host of sorrowing friends. The children of the deceased are: Mrs. Geo. H. Slater, of Lafayette; Mrs. Rev. Broecker and Miss Anna Schmetzer, of Pittsburg, Pa.; Mrs. C. J. Ohrt, of Niagara Falls; Gus Schmetzer, of Muncie, A. G., John and Miss Adelia Schmetzer, of this city.

She was a sister of Christopher Matsch, clerk at Bass' machine works, and John C. Matsch, of the Pacific Iron works, of San Francisco, Cal.

The funeral services will be held at the late residence at 1:30 o'clock on Sunday afternoon and at 2 o'clock from Emanuel's Lutheran church, Rev. Gross officiating. Interment will be made in Concordia cemetery.

MRS. MURRAY.

The death of Mrs. Caroline Jones Murray, occurred at 1:30 o'clock yesterday afternoon. The deceased was eighty-three years of age, and her death was caused by congestion of the lungs, superinduced by old age. She was born in Manchester, Md., and came to Fort Wayne in 1835. She married Dr. P. J. Jones, the first physician in Fort Wayne, he having come here in 1833. Dr. Jones was also mayor of Fort Wayne for a number of years. She was the mother of the late Mrs. Robert Brackenridge. After the death of Dr. Jones his widow married Mr. Murray, deceased.

The funeral will occur at 2 o'clock on Saturday afternoon from the residence of her son, G. W. Jones, at 136 Jackson street. The Rev. H. W. Bennett will officiate.

Next Saturday evening in Jackson's hall Henry Singer, the strong man will be tendered a benefit. A feature of the evening's entertainment, will be a sparring match between Herb Hale and John Cramer, "The Eastern Kid," and wrestling between Joe Acton and Troesch.

The remains of the late David J. Spencer will be removed to the residence of George D. Crane, on West Berry street tomorrow morning at 9 o'clock. The funeral services will be held in the Crane residence at 2 o'clock in the afternoon.

THE number of lynchings occurring in this country in 1897 was so large as to cause national humiliation, and yet even this black record bids fair to be eclipsed by the blacker one of 1898. Hardly a day passes that a lynching in some one of the southern states is not reported, and this particular form of lawlessness is apparently spreading and growing more, instead of less frequent. If the rate of January is continued during the remaining eleven months of the year the lynching record of 1898 will be a thing of which no American can speak without a feeling of shame.

THE pertinent suggestion is made that if Germany continues its policy of excluding American products, our government shall exclude from American ports such German steamships as are constructed to be used for cruisers and are commanded by German naval officers. This would be wholly within American rights. But it would deal a severe blow at German trade, and will hardly be resorted to except as a measure of imperative necessity.

PERHAPS there is nothing in a name, but the pictures painted by Fortuny seem to command fortunes. At the great Stewart art sale in New York twenty-three of the artist's canvasses were sold, and the sum realized amounted to no less than $132,435, or an average of $5,758 apiece, while one of them brought $42,000. It was a pretty stiff price for $10 or $12 worth of paint and canvas, but art comes high these days, and the collector must have a long purse.

THE news that the old age of Adolph Sutro has been clouded with mental infirmity will be received with regret. Mr. Sutro is a very rich man. He began as a miner in a small way. His genius more than that of any other man developed the great art of gold and silver mining, and he has used his vast wealth with an eye to the comfort and happiness of the people of San Francisco. His name, when he shall have passed away, will be preserved in that of a beautiful public park, a public library and public baths, the finest in the world since the sumptuous constructions of the Romans. The popular heart could have wished the sun of such a life an undimmed setting.

THE Spanish government has issued a statement showing that from February, 1895, to December, 1897, the Cuban war has cost in round numbers $240,000,000, not including arrears due from the Cuban treasury exceeding $40,000,000. This enormous drain on Spanish resources has impoverished the nation, yet the Sagasta ministry is preparing to raise money if lenders can be found. Nearly every source of revenue has been mortgaged for years ahead, and if the money is to be found new methods of taxation must be put in effect. That the Spanish people have borne the burden so long without open revolt is due rather to good luck than to good management, but there can be little question that the Carlist cause is being steadily strengthened.

WE hear in this country now and then a good deal of intemperate talk of the venality of our courts and the prostitution of justice. It is sometimes asserted that all men are not equal before the law and that money and position influence our judiciary. There have doubtless been isolated occasions for such reflections upon our courts, but those who have been too deeply impressed with them should watch the progress of the trial of M. Emile Zola before a French tribunal. The great novelist is absolutely in the power of the government, with not a single chance to escape, if it has been willed that he shall not. The court is undisguised in its hostility to him, his testimony is cut out for him and his witnesses picked by the prosecution. Such a spectacle in the United States would provoke an uprising. Our courts are still the altar of our liberties and, though some courts may sometimes be bad, there is not a court in this land where a fair hearing is denied and justice throttled as is being done in Paris in the assize court of the Seine

THE famous Luetgert murder trial in Chicago at last is ended. The big sausagemaker is found guilty and condemned to life imprisonment. The verdict of the jury seems to be a self-confession of doubt as to the prisoner's guilt. It is hardly to be be questioned that had all doubt been removed from the minds of the jurors the death penalty would have been inflicted. It is fashionable in Chicago. Strong as was the case made out by the state, it was not proved clearly that Mrs. Luetgert is dead. The vexed question of the corpus dilecti is still an issue and in some fair minds always will be The jury seems to have fully appreciated that an acquittal would never do and another disagreement would be practically to nolle the case. A life sentence serves the double purpose of punishing the murderer if it be the fact that he is guilty and at the same time sparing him for a pardon if Mrs. Luetgert should turn up. Yet the prisoner's manifest satisfaction that he escapes the death penalty is some evidence that there is justice in the verdict of the jury.

NILES, Mich., Feb. 10.—Chief Simon Pokagon, the aged ruler of the last remnants of the famous Pottawatomie tribe of Indians, has lost his home at Lee, Allegan county, by fire.

The flames also destroyed all the papers and other evidence that he had accumulated to assist him in securing the remaining amount due the members of his tribe from the United States government for the purchase of their lands.

The loss has fallen heavily on the aged warrior, and he has called upon his white brethren to assist him.

New Members Being Initiated Into the Orders—Many Preparing to Celebrate Washington's Birthday.

A new council of the Order of Chosen Friends to be known as Maumee Council No. 3, was organized on February 8, 1898, at Odd Fellows hall, on West Berry street, by Fred E. Wehnert, grand marshal of the grand council of Indiana. Grand Councilor Ed. A. Campbell, of Elkhart, assisted by the officers and members of Columbian Council No. 3, conducted the ceremony of initiation, after which the beautiful ritual work of the order was exemplified. It was voted by the two councils in this city that they join hands and consolidate and be known as Maumee Council No. 3. The Chosen Friends of this city are composed of the most prominent and substantial citizens, and the new council starts out with bright prospects. The first council of Chosen Friends was organized in Fort Wayne in December, 1879, and has paid to deceased and disabled members $25,000. The next meeting of the new council will be held on February 15th, at Odd Fellows hall on West Berry street. Permanent officers for the ensuing term will be elected and all members of the Columbian council and also of the Maumee council are requested to be present.

I. O. O. F.

At the meeting of Fort Wayne Lodge No. 14, I. O. O. F., last Monday evening, Chas. Rhine took his first step in Odd Fellowship. The work was performed from the new manuel of floor work, under the management of F. M. McLeish. Next Monday the lodge will work in the first degree, when the fraternal link of the triple chain will be fully exemplified and explained to the candidates. Frank McLeish will have the degree staff in charge.

Fort Wayne Encampment No. 152, will work in the R. P. degree next Friday evening, when the patriarchs will endeavor to explain the hospitality of the patriarchs of old.

A. O. U. W.

The meeting of No. 36, A. O. U. W., this evening will be one of importance to the three local lodges. Arrangements will be made to pay due respect to the memory of the late William M. Culver, whose death occurred early Wednesday morning. Mr. Culver had been a member of this lodge for a number of years and was ever ready to lend a helping hand in attending to the wants of the sick and needy. He was always a leader in performing committee duties and was captain of the team which performed the initiatory work, and to he alone credit is due for the proficiency attained in this line. At the time he became sick he was filling the office of overseer and was a member of the First A. O. U. W. band, which organization will lead the lodges who will act as escorts from the late residence to the grave.

At the last meeting of No. 36 a committee consisting of Messrs. H. F. France, John W. Vordermark, N. Conover, G. R. Hench, George E. Campbell and Henry Brunkhart was appointed to arrange for the joint meeting to be held February 21. Nos. 19 and 50 will be guests of No. 36 and they will be given a royal reception. The committee is preparing to feed 500 people. After supper a smoker will be indulged in and a general good time enjoyed. The program will consist of vocal and instrumental music, recitations and impromptu speeches in response to calls from the toastmastor.

The committee has arranged to give a masquerade social at the Knights of Pythias hall next Tuesday evening. All the members of the Daughters of Workmen and their friends are invited. Come and bring your friends with you, as a good time and a good supper will be assured. The ladies are sure to make a success of whatever they undertake.

NATIONAL UNION.

National Union No. 93 met last evening. After the business meeting closed a quartet rendered several musical selections.

FRATERNAL MYSTIC CIRCLE.

Fort Wayne ruling 662 held a regular meeting last evening and the attendance was fair. After routine business had been expeditiously disposed of, considerable discussion was indulged in by nearly all the members present relative to the good of the order. Much interest was manifested, plainly showing that all the members were and are deeply interested. Then followed the final appointment of committees relative to the Washington social and entertainment. The committee on lunch and refreshments consists of all the lady members.

The reception committee is composed of the three ruling executive officers, as follows: John G. Haag, Warren Rogers and John M. Lipes. It was also agreed to give the entertainment in Harmony hall, No. 20 West Berry street, large room, second floor. Refreshments will be served to the audience immediately after the entertainment, which will include vocal and instrumental music, comedy sketches, song and dance, etc., after which D. E. Stevens, S. M. R., of Philadelphia, will deliver a short address.

BEN HUR.

Ben Hur Court, No. 15, Tribe of Ben Hur, met last Monday evening, had a large meeting and much interest was shown in the welfare of the order This court bids fair to be one of the largest in the state. Several applications for membership were received and one candidate was given a chance to ride the goat. After the initiation and business of the meeting had been disposed of, the members devoted the evening to the enjoyment of music and interesting literary exercises, which are regular features of their meetings.

DEGREE OF HONOR.

Degree of Honor No. 20, A. O. U. W. is flourishing and adding new members each session. Louis Lombard was the last new member added. Degree of Honor No. 2 expects to co-operate with lodge No. 36, A. O. U. W. in an entertainment which promises to be a very pleasant affair. The tickets for the taffy pulling are selling very rapidly and there will no doubt be a large attendance and a pleasant time.

SEXENNIAL LEAGUE.

Unity lodge, of the Sexennial League, holds its meetings Thursday evening of each week, and will have a class of ten to initiate this evening. Mrs. George A. Sthair, of 40 Force street, will entertain the league and their friends at tea Tuesday, February 15.

RATHBONE SISTERS.

There was a very enthusiastic meeting held at Rathbone Temple, No. 31, last Saturday night. Besides initiation there was a literary program, which was enjoyed by all. Mr. and Mrs. Miller, of Andrews, were present and enjoyed the exercises very much. There is to be a box social tonight at Mrs. Adams on Lavina street, to which everybody is invited. Don't forget the entertainment to be held at Standard hall Thursday, February 17.

K. AND L. OF COLUMBIA.

Liberty council, No. 22, Knights and Ladies of Columbia held a rousing meeting last evening. Every member present was enthusiastic. Arrangements are being made to initiate a large class in the near future.

GRAND FRATERNITY.

Grand Fraternity No. 85, is making arrangements for a private masquerade party to be given at the hall, Aldine block, Thursday evening, February 17. Let every frater come, representing some being of this glorious world, and enjoy an evening with companions of the nations. During the evening a dainty luncheon will be served in courses to suit the taste of every one present. Turn out and help make this occasion one to be remembered.

ROYAL ARCANUM.

Howard council, No. 246, Royal Arcanum, will hold a Valentine social next Monday evening, at which the members and their families are expected to turn out liberally. The chief feature of the evening's amusements will be progressive pedro, during the progress of which an orchestra will render some selections.

MODERN WOODMEN.

Edward camp, No. 3,127, Modern Woodmen of America, is still keeping up the interest of woodcraft. The growing popularity of this order is demonstrated by the number of applications for membership which are received at each meeting of the camp. Tuesday evening, just as the Foresters were about to shoulder their axes to hew and prepare a log for practical use in woodcraft, there came an alarm at the door and a delegation of Royal Neighbors came marching in. Needless to say work was suspended and the Royal Neighbors given a hearty welcome. They went away satisfied that the true Woodmen appreciate the work of this young and thrifty branch of the order.

There will be a class of candidates on the evening of February 22, it being Washington's birthday. Every Woodman is requested to sharpen his hatchet and be ready, for there will be cherry trees to chop and no lie either, after which will be given a supper and social entertainment.

A communication was received from Fort Wayne camp, No. 4761, inviting Edwards camp to participate with them in an old fashioned spelling match, which was accepted. As the members of Edwards camp are all good spellers they will issue a challenge, the defeated camp to turn the grindstone while the winning camp grind their axes.

Another notable feature was the musical entertainment given by Mesdames Ulery, Wynan and Bowser and Miss Lee. The local lodge now has nearly 300 members. Arrangements are now under way for an entertainment next Wednesday evening which will be open to the public. Capt. T. W. Blair and Miss Florence Higgins have charge of this entertainment. They have already secured the Emerson quartet, the Filmore quartet, Miss Laura Bowser, Mrs. Lee, Mrs. Ada Denner Ulrey, Chaplain Roach, Professor Ulrey, the impersonater, and other attractions.

"To tell the truth my mother has lived with one foot in the grave," writes Mrs. Eugene Stantzenberg, of No. 1604 Walker Ave., Houston, Texas, in a letter to Dr R. V. Pierce, of Buffalo, N. Y. "With a most thankful heart I will tell you about the wonderful cure effected in her case. She has been a perfect wreck for seven long years No words can describe what she has suffered. She could not sleep on account of severe pains. She tried every doctor around here and spent hundreds of dollars without benefit. After hearing of your wonderful remedies I wrote to you. My mother has taken six bottles of the 'Golden Medical Discovery,' and six of the 'Favorite Prescription,' and is now perfectly cured. Please receive the heartiest thanks and blessings from my father and seven children for saving the life of dear mother. May God bless you and your institution, is the wish of your friend."

Tens of thousands of women have found complete and permanent relief from obstinate and seemingly incurable disease by using the wonderful remedies referred to above. The "Golden Medical Discovery" possesses the peculiar property of nourishing and vitalizing the blood with the life-giving red corpuscles which build up healthy flesh and muscular strength.

In the special weaknesses and diseases of the feminine organs, the "Favorite Prescription" is a perfect and positive specific. It is the only scientific medicine prepared for that purpose by an educated physician and specialist in that particular field of practice.

For weak and nervous women these two medicines taken conjointly constitute the most marvelously successful course of treatment known to the medical profession.

For nearly 30 years Dr. Pierce has been chief consulting physician to the Invalids Hotel and Surgical Institute, Buffalo, N. Y., at the head of a splendid staff of associate specialists, graduates from the leading medical universities of America and Europe.

A WOMAN'S SUFFERINGS.

Some of the Agonies They Needlessly Endure.

Nervousness and Female Weaknesses Ruin Many Lives.

These Poor Sufferers Have Found A Sure Way To Get Well.

Female weaknesses are more common today than ever before. Constant work and worry weaken the nerves and vitality, and female weakness follows. As a result there is pain, discharges, suppression, irregularities, weak back, inflammations, bearing down, bad taste in the mouth, loss of appetite, faintness, constipation, nervousness, sleeplessness and irritability. Mrs. S. Taylor, of 251 West 17th St., New York City, says:

"For years I have been unable to attend to my household duties owing to severe sickness. I was troubled terribly with female weakness, suppression of the menses for over six years, nervous exhaustion, sleeplessness and general debility. I had coldness of limbs and feet, and was in a helpless condition. I feared I should never get well.

"I had been under a doctor's care all the time but got no better. I was utterly prostrated, and good for nothing. By the advice of a friend who was cured by Dr. Greene's Nervura blood and nerve remedy, I began using this wonderful medicine. After taking it a short time I was completely cured of all my troubles. My nerve strength returned, my female weakness entirely left me, my nervousness disappeared, I slept well and was in perfect health. For this blessing I have to thank Dr. Greene's Nervura blood and nerve remedy. It is a wonderful medicine."

Such testimonials as these are always the means of curing thousands of suffering women who are wise enough to accept the advice of those who have been cured. Countless numbers of people all over the land have regained their health by this wonderful remedy, and are crying out to their fellow creatures to take Dr. Greene's Nervura blood and nerve remedy, and be made well and strong. It is not a patent medicine, but the prescription of the most successful physician, Dr. Greene, of 148 State Street, Chicago, Ill., who can be consulted free, personally or by letter.

BARRIOS IS KILLED.

Guatemala's President the Victim of an Assassin.

Was of Liberal Ideas and Tried to Develop His Country's Natural Resources.

WASHINGTON, Feb. 10.—President Barrios, of Guatemala, has been assassinated. Senor Arriaga, the Guatemalan minister, received an official dispatch from the minister of foreign affairs at Guatemala City, confirming an earlier report of the assassination received by a San Francisco newspaper. The official dispatch added that entire calmness prevailed, and that First Vice President Estrada Cebrera had succeeded to the presidency. No details of the crime were given.

The assurances of the absence of any public disorder in connection with the assassination of President Barrios, and of the peaceful and immediate succession of the first vice president, in accordance with the constitutional methods of the country, are special sources of gratification to the officials of the Guatemalan legation here. To some extent they alleviate the shock of the tragedy. The relations between the late president and the Guatemalan minister, Senor Arriaga, were much more than of an official character. They were close personal friends, and the death of the president at the hands of an assassin comes as a personal bereavement to the minister.

Senor Arriaga said President Barrios was a man of wide attainments and marked executive ability. He was a man of liberal ideas and tried to develop his country's natural resources.

He was compaartively young, being only forty-two years old. The six years' term of service for which he was elected terminated March 15 next, but the national congress had already extended this term for four years. The president, Mr. Cabrera, is a man of prominence in Guatemala.

In that country there is no vice president elected with the president. The duty of filling the executive chair devolves on congress. Accordingly, two vice presidents, first and second, were designated some time ago. They are eligible in the order of their choice. When the excitement of the tragedy has passed, a presidential election may be held.

NORTHERN INDIANA NOTES.

Jim Foster is under indictment in Goshen for running a gambling house where school boys were the players.

F. W. Straus, for many years a banker and leading business man in Ligonier, is dead at Chicago. He was very wealthy.

The manager of the opera house at Kendallville has publicly issued a request that ladies remove their hats during performances.

The Hebrew Ladies' Benevolent society, of Laporte, is preparing a vaudeville performance for their annual benefit for charity.

A fire in the wholesale and retail grocery and provision store of Kraus & Apfelbaum, at Columbia City, caused a loss of $2,000.

The Laporte Carriage company is at work building a horseless carriage for a party of Klondike gold hunters. It will be run by electricity.

Leroy Sloane, the Warsaw youth who committed a criminal assault on little Nora Hare, near North Manchester, is now safely lodged in in the Wabash county jail. He is trying to play the insanity dodge again, it is reported.

The Michigan City Dispatch has had its faith in humanity greatly strengthened. For a long time it had as a subscriber a convict in the penitentiary. When his term expired he left the prison for his home in Pennsylvania without paying for the paper. The other day the Dispatch received a letter from the former convict, who desired to know the amount of his bill for subscription. It was sent to him and he made a prompt remittance. And this moves the Dispatch to say such honesty is "worthy of emulation by all persons inside and outside of state prisons."

FRANK BOGASH.

Clark's Horse Review Speaks Highly of the Fast Pacer.

A Handsome Picture of the Champion Graces the Front Page of the Big Horse Paper.

Clark's Horse Review of this week contains as its frontispiece a handsome picture of Fort Wayne's champion pacer, Frank Bogash. In commenting on the animal, the Horse Review says:

"Our title page picture this week is a very good likeness of the great pacing stallion Frank Bogash 2:04¼, one of the most sensational side wheelers of the past two seasons. He is an Ohio production, having been bred by George W. Bowerman, of Napoleon, Ohio, who also bred, and at that time owned his sire, Atlantic King 2:09¾, now the property of Centlivre Bros.' of Spy Run Farm, Fort Wayne, Ind. Frank Bogash made his debut as a two-year-old in 1894, taking a record of 2:26¾. Very little was done with him as a three-year-old, but in 1896 as a four-year-old, he was a sensation, won race after race in commanding style, and retired with a record of 2:10¼. At the close of the season he was booked to appear as one of the particular stars of 1897, and he was not a disappointment, his record being the fastest made by a new comer to the 2:10 list. He won several notable races, but his greatest performance was in a race in which he was defeated. This was the famous six-heat race won by Planet at Columbus, Ohio, August 7, which was a record-breaker. Aileen won the first heat in 2:07¼, Bogash the next two in 2:05¾, 2:04¼, and Planet the next three in 2:05¾, 2:07¼, 2:06¼. In the last heat, the son of Atlantic King, was beaten by a neck only.

"Frank Bogash has always been campaigned in the Spy Run stable, he being owned and driven by its trainer, the well known reinsman, Frank Bogash, who sold him, last season, to a Boston gentleman. He was driven by Oscar Ames at Columbus, but later in the season was restored to his old master's care and will be raced by him in 1898. He is an aspirant for free-for-all honors."

The board of health reports that there are no new cases of scarlet fever or diphtheria in this city, but that measles is still raging. Every effort is made to stop the progress of the latter disease and every day scores of children are sent home from school because there is a suspicion that they may have been exposed. There has been only two fatalities from measles. Two or three cases of membraneous croup have been reported within the last few days and the houses where this disease exists is quarantined the same as in cases of scarlet fever and diphtheria. Dr. Drayer says there has not been a case reported which has not been quarantined.

There was a quiet wedding in the United Brethren parsonage this afternoon, the bride and groom being none other than Arthur A. Reed and Miss Minnie Schoppmann, who supposed they were springing a big surprise upon their friends, for they told no one of their intentions. The matter had leaked out in some manner and at the shop where the groom is employed the men were talking about the approaching marriage as early as 8 o'clock and planning a reception for Mr. Reed when he appeared among them which will eclipse any event of a similar nature ever given there, and this is saying a good deal. Mr. Reed is the popular storekeeper at the Bass works, in the mechanical department, and his bride is a young lady well known and held in high esteem by all of our citizens. They will go to housekeeping immediately.

INFERNO OF FLAME.

[CONTINUED FROM FIRST PAGE.]

posite side of the avenue to greater distances A whole company of firemen was throwing a stream into the great storage house from a narrow court yard in the rear of Penn avenue, from which a narrower alley led to the street

As the wall fell, Chief Humphreys, who was standing near the entrance to the narrow street, called to the men of No 12 engine company, who had just time to get away from the spot, when the line of hose and pipe was buried beneath tons of debris.

MIRACULOUS ESCAPE.

Their escape was miraculous, one fireman, named Reilly, being struck by a falling brick as he jumped to obey the shouting warning of the chief. Through the Hoveler warehouse the flames swept like a cloud of dust before the wind. The building though new was of ordinary construction and presented all that was needed in the way of material for a fierce fire

Added to this was the nature of its contents, 600 barrels of whisky. One after another of these barrels exploded, throwing blazing beams and rafters, masses of stone and brick into the air, and scattering the firemen, police and spectators. From the blazing timbers, which were hurled in every direction, the fire was communicated to the adjoining buildings. McKallup & Co.'s grain and feed warehouse on the corner of Pike street, caught in the rear, and despite the efforts of the firemen the flames worked their way into the center of the building and then mounted the elevator shaft to the roof, through which it was soon pouring.

The building was filled on every floor with flour, feed and grain. On the ground floor was stored several hundred tons of anthracite coal. So fierce was the fire that this was soon burning and under the draft, influenced by the heat, was pouring out gaseous fumes that spread through the building and almost overcame the firemen who were working to keep back the flames. Following the last explosion, but a moment, it seemed, the flames leaped across the narrow space that separated the great warehouse from the rear of the buildings facing on Penn avenue and wrapped themselves around them.

By 3 o'clock the flames were under control, but at noon today a dozen engines were still throwing water on the smouldering ruins

TAKING OUT THE DEAD.

The work of taking out the killed and injured was begun as soon as the fire was well enough under control to give the firemen and police a chance to go at the sorrowful duty. At 11 o'clock this morning, seventeen dead bodies had been removed to the morgue, eighteen injured were in the hospital, and three others were missing. The police believe that several more are underneath the debris, and no one is willing to predict what a tale of death the complete search of the ruins will unfold.

The scene at the morgue was a harrowing one. As soon as the badly burned and mangled bodies were removed they were taken there, where they were washed and placed in presentable condition. The injured were taken to the Homeopathic hospital, and as fast as they were brought in were placed in the emergency ward and scattered throughout the various wards and in the corridors. Most of them were not badly hurt. There were many narrow escapes during the fire.

AMMONIA CAUSED EXPLOSIONS.

The explosions were caused by the bursting of large tanks filled with ammonia, used in the manufacture of ice W. C. Burt, a prominent insurance man, places the total loss at close to $2,000,000 Mr Burt said that there is not an insurance company in either Pittsburg or Allegheny that does not carry policies on the property destroyed. The cause of the fire has not yet been discovered

Meetings are held every evening in the Wayne street Methodist church The bad weather has decreased the attendance but the interest has continuously increased. Many have been converted and bear testimony to it. There are many cottage prayer meetings being held by the ladies, A male quartet has rendered some excellent numbers The pastor, Rev Dr Bennett, preaches a short sermon, and an altar exercise follows. An invitation is extended to all to attend.

THE number of lynchings occurring in this country in 1897 was so large as to cause national humiliation, and yet even this black record bids fair to be eclipsed by the blacker one of 1898. Hardly a day passes that a lynching in some one of the southern states is not reported, and this particular form of lawlessness is apparently spreading and growing more, instead of less frequent. If the rate of January is continued during the remaining eleven months of the year the lynching record of 1898 will be a thing of which no American can speak without a feeling of shame.

THE pertinent suggestion is made that if Germany continues its policy of excluding American products, our government shall exclude from American ports such German steamships as are constructed to be used for cruisers and are commanded by German naval officers. This would be wholly within American rights. But it would deal a severe blow at German trade, and will hardly be resorted to except as a measure of imperative necessity.

PERHAPS there is nothing in a name, but the pictures painted by Fortuny seem to command fortunes. At the great Stewart art sale in New York twenty-three of the artist's canvases were sold, and the sum realized amounted to no less than $132,425, or an average of $5,758 apiece, while one of them brought $12,000. It was a pretty stiff price for $10 or $12 worth of paint and canvas, but art comes high these days, and the collector must have a long purse.

THE news that the old age of Adolph Sutro has been clouded with mental infirmity will be received with regret. Mr. Sutro is a very rich man. He began as a miner in a small way. His genius more than that of any other man developed the great art of gold and silver mining, and he has used his vast wealth with an eye to the comfort and happiness of the people of San Francisco. His name, when he shall have passed away, will be preserved in that of a beautiful public park, a public library and public baths, the finest in the world since the sumptuous constructions of the Romans. The popular heart could have wished the sun of such a life an undimmed setting.

THE Spanish government has issued a statement showing that from February, 1895, to December, 1897, the Cuban war has cost in round numbers $240,000,000, not including arrears due from the Cuban treasury exceeding $40,000,000. This enormous drain on Spanish resources has impoverished the nation, yet the Sagasta ministry is preparing to raise money if lenders can be found. Nearly every source of revenue has been mortgaged for years ahead, and if the money is to be found new methods of taxation must be put in effect. That the Spanish people have borne the burden so long without open revolt is due rather to good luck than to good management, but there can be little question that the Carlist cause is being steadily strengthened.

WE hear in this country now and then a good deal of intemperate talk of the venality of our courts and the prostitution of justice. It is sometimes asserted that all men are not equal before the law and that money and position influence our judiciary. There have doubtless been isolated occasions for such reflections upon our courts, but those who have been most deeply impressed with them should watch the progress of the trial of M. Emile Zola before a French tribunal. The great novelist is absolutely in the power of the government, with not a single chance to escape, if it has been willed that he shall not. The court is undisguised in its hostility to him, his testimony is cut out for him and his witnesses picked by the prosecution. Such a spectacle in the United States would provoke an uprising. Our courts are still the altar of our liberties and, though some courts may sometimes be bad, there is not a court in this land where a fair hearing is denied and justice throttled as is being done in Paris in the sessio court of the Seine.

THE famous Luetgert murder trial in Chicago at last is ended. The big sausagemaker is found guilty and condemned to life imprisonment. The verdict of the jury seems to be a self-confession of doubt as to the prisoner's guilt. It is hardly to be be questioned that had all doubt been removed from the minds of the jurors the death penalty would have been inflicted. It is fashionable in Chicago. Strong as was the case made out by the state, it was not proved clearly that Mrs. Luetgert is dead. The vexed question of the corpus delecti is still an issue and in some fair minds always will be. The jury seems to have fully appreciated that an acquittal would never do and another disagreement would be practically to nolle the case. A life sentence serves the double purpose of punishing the murderer if it be the fact that he is guilty and at the same time sparing him for a pardon if Mrs. Luetgert should turn up. Yet the prisoner's manifest satisfaction that he escapes the death penalty is some evidence that there is justice in the verdict of the jury.

New Members Being Initiated Into the Orders—Many Preparing to Celebrate Washington's Birthday.

A new council of the Order of Chosen Friends to be known as Maumee Council No. 3, was organized on February 8, 1898, at Odd Fellows hall, on West Berry street, by Fred E. Webnert, grand marshal of the grand council of Indiana. Grand Councilor Ed. A. Campbell, of Elkhart, assisted by the officers and members of Columbian Council No. 3, conducted the ceremony of initiation, after which the beautiful ritual work of the order was exemplified. It was voted by the two councils in this city that they join hands and consolidate and be known as Maumee Council No. 3. The Chosen Friends of this city are composed of the most prominent and substantial citizens, and the new council starts out with bright prospects. The first council of Chosen Friends was organized in Fort Wayne in December, 1879, and has paid to deceased and disabled members $25,000. The next meeting of the new council will be held on February 16th, at Odd Fellows hall on West Berry street. Permanent officers for the ensuing term will be elected and all members of the Columbian council and also of the Maumee council are requested to be present.

I. O. O. F.

At the meeting of Fort Wayne Lodge No. 14, I. O. O. F., last Monday evening, Chas. Rhine took his first step in Odd Fellowship. The work was performed from the new manuel of floor work, under the management of F. M. McLeish. Next Monday the lodge will work in the first degree, when the fraternal link of the triple chain will be fully exemplified and explained to the candidates. Frank McLeish will have the degree staff in charge.

Fort Wayne Encampment No. 182, will work in the R. P. degree next Friday evening, when the patriarchs will endeavor to explain the hospitality of the patriarchs of old.

A. O. U. W.

The meeting of No. 36, A. O. U. W., this evening will be one of importance to the three local lodges. Arrangements will be made to pay due respect to the memory of the late William M. Culver, whose death occurred early Wednesday morning. Mr. Culver had been a member of this lodge for a number of years and was ever ready to lend a helping hand in attending to the wants of the sick and needy. He was always a leader in performing committee duties and was captain of the team which performed the initiatory work, and he also credit is due for the proficiency attained in this line. As the time he became sick he was filling the office of orriver and was a member of the First A. O. U. W. band, which organization will lead the lodges who will act as escorts from the late residence to the grave.

At the last meeting of No. 36 a committee consisting of Messrs. H. F. France, John W. Vordermark, N. Conover, G. R. Hench, George E. Campbell and Henry Bronkhurst was appointed to arrange for the joint meeting to be held February 24. Nos. 19 and 50 will be guests of No. 36 and they will be given a royal reception. The committee is preparing to feed 500 people. After supper a smoker will be indulged in and a general good time enjoyed. The program will consist of vocal and instrumental music, recitations and impromptu speeches in response to calls from the toastmaster.

PERSONS troubled with constipation should try Dr. Miles' Pain Pills. They speedily cure. 25 doses 25 cents. Sold by Dreier Bros.

PERHAPS there is nothing in a name, but the pictures painted by Fortuny seem to command fortunes. At the great Stewart art sale in New York twenty-three of the artist's canvases were sold, and the sum realized amounted to no less than $132,425, or an average of $5,758 apiece, while one of them brought $12,000. It was a pretty stiff price for $10 or $12 worth of paint and canvas, but art comes high these days, and the collector must have a long purse.

THE news that the old age of Adolph Sutro has been clouded with mental infirmity will be received with regret. Mr. Sutro is a very rich man. He began as a miner in a small way. His genius more than that of any other man developed the great art of gold and silver mining, and he has used his vast wealth with an eye to the comfort and happiness of the people of San Francisco. His name, when he shall have passed away, will be preserved in that of a beautiful public park, a public library and public baths, the finest in the world since the sumptuous constructions of the Romans. The popular heart could have wished the sun of such a life an undimmed setting.

THE Spanish government has issued a statement showing that from February, 1895, to December, 1897, the Cuban war has cost in round numbers $240,000,000, not including arrears due from the Cuban treasury exceeding $40,000,000. This enormous drain on Spanish resources has impoverished the nation, yet the Sagasta ministry is preparing to raise money if lenders can be found. Nearly every source of revenue has been mortgaged for years ahead, and if the money is to be found new methods of taxation must be put in effect. That the Spanish people have borne the burden so long without open revolt is due rather to good luck than to good management, but there can be little question that the Carlist cause is being steadily strengthened.

WE hear in this country now and then a good deal of intemperate talk of the venality of our courts and the prostitution of justice. It is sometimes asserted that all men are not equal before the law and that money and position influence our judiciary. There have doubtless been isolated occasions for such reflections upon our courts, but those who have been most deeply impressed with them should watch the progress of the trial of M. Emile Zola before a French tribunal. The great novelist is absolutely in the power of the government, with not a single chance to escape, if it has been willed that he shall not. The court is undisguised in its hostility to him, his testimony is cut out for him and his witnesses picked by the prosecution. Such a spectacle in the United States would provoke an uprising. Our courts are still the altar of our liberties and, though some courts may sometimes be bad, there is not a court in this land where a fair hearing is denied and justice throttled as is being done in Paris in the sessio court of the Seine.

CHIEF POKAGON'S DISTRESS

Loses His House and All His Valuable Documents by Fire.

NILES, Mich., Feb. 10.—Chief Simon Pokagon, the aged ruler of the last remnants of the famous Pottawatomie tribe of Indians, has lost his home at Lee, Allegan county, by fire.

The flames also destroyed all the papers and other evidences that he had accumulated to assist him in securing the remaining amount due the members of his tribe from the United States government for the purchase of their lands.

The loss has fallen heavily on the aged warrior, and he has called upon his white brethren to assist him.

A WOMAN'S SUFFERINGS.

Some of the Agonies They Needlessly Endure.

Nervousness and Female Weaknesses Ruin Many Lives.

These Poor Sufferers Have Found A Sure Way To Get Well.

Female weaknesses are more common today than ever before. Constant work and worry weaken the nerves and vitality, and female weakness follows. As a result there is pain, discharges, suppression, irregularities, weak back, inflammations, leaving down, bad taste in the mouth, loss of appetite, faintness, constipation, nervousness, sleeplessness and irritability. Mrs. S. Taylor, of 257 West 17th St., New York City, says:

"For years I have been unable to attend to my household duties owing to severe sickness. I was troubled terribly with female weakness, suppression of the menses for over six years, nervous exhaustion, sleeplessness and general debility. I had coldness of limbs and feet, and was in a helpless condition. I feared I should never get well.

"I had been under a doctor's care all the time but got no better. I was utterly prostrated, and good for nothing. By the advice of a friend who was cured by Dr. Greene's Nervura blood and nerve remedy, I began using this wonderful medicine. After taking it a short time I was completely cured of all my troubles. My nerves strength returned, my female weakness entirely left me, my nervousness disappeared, I slept well and was in perfect health. For this blessing I have to thank Dr. Greene's Nervura blood and nerve remedy. It is a wonderful medicine."

Such testimonials as these are always the means of curing thousands of suffering women who are wise enough to accept the advice of those who have been cured. Countless numbers of people all over the land have regained their health by this wonderful remedy, and are crying out to their fellow-creatures to take Dr. Greene's Nervura blood and nerve remedy, and be made well and strong. It is not a patent medicine, but the prescription of the most successful physician, Dr. Greene, of 35 State Street, Chicago, Ill., who can be consulted free, personally or by letter.

shoulder their axes to hew and prepare a log for practical use in woodcraft, there came an alarm at the door and a delegation of Royal Neighbors came marching in. Needless to say work was suspended and the Royal Neighbors given a hearty welcome. They went away satisfied that the true Woodmen appreciate the work of this young and thrifty branch of the order.

There will be a class of candidates on the evening of February 22, it being Washington's birthday. Every Woodman is requested to sharpen his hatchet and be ready, for there will be cherry trees to chop and no lie either, after which will be given a supper and social entertainment.

A communication was received from Fort Wayne camp, No. 4761, inviting Edwards camp to participate with them in an old fashioned spelling match, which was accepted. BARRIOS IS KILLED.

Guatemala's President the Victim of an Assassin.

Was of Liberal Ideas and Tried to Develop His Country's Natural Resources.

A Handsome Picture of the Champion Graces the Front Page of the Big Horse Paper.

WASHINGTON, Feb. 10.—President Barrios, of Guatemala, has been assassinated. Senor Arriaga, the Guatemalan minister, received an official dispatch from the minister of foreign affairs at Guatemala City, confirming an earlier report of the assassination received by a San Francisco newspaper. The official dispatch added that entire calmness prevailed, and that First Vice President Estrada Cabrera had succeeded to the presidency. No details of the affair were given.

The assurances of the absence of any public disorder in connection with the assassination of President Barrios, and of the peaceful and immediate succession of the first vice president, in accordance with the constitutional methods of the country, are special sources of gratification to the officials of the Guatemalan legation here. To some extent they alleviate the shock of the tragedy. The relations between the late president and the Guatemalan minister, Senor Arriaga, were much more than of an official character. They were close personal friends, and the death of the president at the hands of an assassin comes as a personal bereavement to the minister.

Senor Arriaga said President Barrios was a man of wide attainments and marked executive ability. He was a man of liberal ideas and tried to develop his country's natural resources.

He was comparatively young, being only forty-two years old. The six years' term of service for which he was elected terminated March 15 next, but the national congress had already extended this term for four years. The president, Mr. Cabrera, is a man of prominence in Guatemala.

In that country there is no vice president elected with the president. The duty of filling the executive chair devolves on congress. Accordingly, two vice presidents, first and second, were designated some time ago. They are eligible in the order of their choice. When the excitement of the tragedy has passed, a presidential election may be held.

Leroy Sloane, the Warsaw youth who committed a criminal assault on little Nora Hare, near North Manchester, is now safely lodged in the Wabash county jail. He is trying to play the insanity dodge again, it is reported.

The Michigan City Dispatch has had its faith in humanity greatly strengthened. For a long time it had as a subscriber a prisoner in the penitentiary. When his term expired he left the prison for his home in Pennsylvania without paying for his paper. The other day the Dispatch received a letter from the former convict, who desired to know the amount of his bill for subscription. It was sent to him and he made a prompt remittance. And this moves the Dispatch to say such honesty is "worthy of emulation by all persons inside and outside of state prisons."

FRANK BOGASH.

Clark's Horse Review Speaks Highly of the Fast Racer.

A Handsome Picture of the Champion Graces the Front Page of the Big Horse Paper.

Clark's Horse Review of this week contains as its frontispiece a handsome picture of Fort Wayne's champion pacer, Frank Bogash. In commenting on the animal, the Horse Review says:

"Our title page picture this week is a very good likeness of the great pacing stallion Frank Bogash 2:04½; one of the most sensational side wheelers of the past two seasons. He is an Ohio production, having been bred by George W. Bowerman, of Napoleon, Ohio, who also bred, and at that time owned his sire, Atlantic King 2:09¾, now the property of Centivee Bros.' of Spy Run Farm, Fort Wayne, Ind. Frank Bogash made his debut as a two-year-old in 1894, taking a record of 2:28¾. Very little was done with him as a three-year-old, but in 1896 as a four-year-old, he was a sensation, won race after race in commanding style, and retired with a record of 2:10¼. At the close of the season he was looked to appear as one of the particular stars of 1897, and he was not a disappointment, his record being the fastest made by a new comer to the 2:10 list. He won several notable mees, but his greatest performance was in a race in which he was defeated. This was the famous six-heat race won by Planet at Columbus, Ohio, August 7, which was a record-breaker. Alison won the first heat in 2:07¼, Bogash the next two in 2:08¾, 2:04¼, and Planet the next three in 2:06¾, 2:07¼, 2:06¾. In the last heat, the son of Atlantic King, was beaten by a neck only.

"Frank Bogash has always been campaigned in the Spy Run stable, he being owned and driven by its trainer, the well known gentleman, Frank Bogash, who sold him, last season, to a Boston gentleman. He was driven by Oscar Ameraut Columbus, but later in the season was restored to his old master's care and will be raced by him in 1898. He is an aspirant for free-for-all honors."

The board of health reports that there are no new cases of scarlet fever or diphtheria in this city, but that measles is still raging. Every effort is made to stop the progress of the latter disease and every day scores of children are sent home from school because there is a suspicion that they may have been exposed. There has been only two fatalities from measles. Two or three cases of pneumonious croup have been reported within the last few days and the houses where this disease exists is quarantined the same as in cases of scarlet fever and diphtheria. Dr. Dwyer says there has not been a case reported which has not been quarantined.

INFERNO OF FLAME.

(CONTINUED FROM FIRST PAGE.)

posite side of the avenue to greater distances. A whole company of firemen was throwing a stream into the great storage house from a narrow court yard in the rear of Penn avenue, from which a narrower alley led to the street.

As the wall fell, Chief Humphreys, who was standing near the entrance to the narrow street, called to the men of No. 12 engine company, who had just time to get away from the spot, when the line of hose and pipe was buried beneath tons of debris.

MIRACULOUS ESCAPE.

Their escape was miraculous, one fireman, named Reilly, was struck by a falling brick as he jumped to obey the shouting warning of the chief. Through the Hoveler warehouse the flames swept like a cloud of dust before the wind. The building though now was of ordinary construction and presented all that was needed in the way of material for a fierce fire.

Added to this was the nature of its contents, 600 barrels of whisky. One after another of these barrels exploded, throwing blazing beams and rafters, masses of stone and brick into the air, and scattering the firemen, police and spectators. From the blazing timbers, which were hurled in every direction, the fire was communicated to the adjoining buildings. McKallup & Co.'s grain and feed warehouse on the corner of Pike street, caught in the rear, and despite the efforts of the firemen the flames worked their way into the center of the building and then mounted the elevator shaft to the roof, through which it was soon pouring.

The building was filled on every floor with flour, feed and grain. On the ground floor was stored several hundred tons of anthracite coal. So fierce was the fire, that this was soon burning and under the draft, influenced by the heat, was pouring out gaseous fumes that spread through the building and almost overcame the firemen who were working to keep back the flames. Following the last explosion, but a moment, it seemed, the flames leaped across the narrow space that separated the great warehouse from the rear of the buildings facing on Penn avenue and wrapped themselves around them.

By 3 o'clock the flames were under control, but at noon today six dozen engines were still throwing water on the smouldering ruins.

TAKING OUT THE DEAD.

The work of taking out the killed and injured was begun as soon as the fire was well enough under control to give the firemen and police a chance to go at the sorrowful duty. At 11 o'clock this morning, seventeen dead bodies had been removed to the morgue, eighteen injured were in the hospital, and three others were missing. The police believe that several more are underneath the debris, and no one is willing to predict what a tale of death the complete search of the ruins will unfold.

The scene at the morgue was a harrowing one. As soon as the badly burned and mangled bodies were removed they were taken there, where they were washed and placed in presentable condition. The injured were taken to the Homeopathic hospital, and as fast as they were brought in were placed in the emergency ward and scattered throughout the various wards and in the corridors. Most of them were not badly hurt. There were many narrow escapes during the fire.

AMMONIA CAUSED EXPLOSIONS.

The explosions were caused by
